Abstract:

Ethnopharmacological relevance:

Buyang huanwu decoction (BYHWD) is a classic recipe in traditional Chinese medicine (TCM) to supplement Qi and activate blood. It has been used to recover the neural function after the injury of central nervous system for hundreds of years in China.

Aim of the study:

¹ Liang LI, M.D., Associate professor, Provincial Key Laboratory of TCM Diagnostics, Hunan University of Chinese Medicine, Science and Education Park, Yuelu District, Changsha 410208, China.Tel: + 86 731 8845 8217.
