Inhibition of phosphodiesterase 2 reverses gp91phox oxidase-mediated depression- and anxiety-like behavior

Xianfeng Huang, Yilixiati Xiaokaiti, Junqing Yang, Jianchun Pan, Zhi Li, Victor Luria, Yunfeng Li, Guoqiang Song, Xiongwei Zhu, Han-Ting Zhang, James M. O'Donnell, Ying Xu

PII: S0028-3908(18)30708-1

DOI: [10.1016/j.neuropharm.2018.09.039](https://doi.org/10.1016/j.neuropharm.2018.09.039)

Reference: NP 7364

To appear in: *Neuropharmacology*

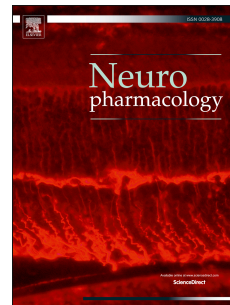

Received Date: 19 July 2018

Revised Date: 17 September 2018

Accepted Date: 24 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Inhibition of phosphodiesterase 2 reverses gp91phox oxidase-mediated depression- and anxiety-like behavior**

**Running Title: PDE2 inhibition reverses depression-like behavior**
