

## Accepted Manuscript

The oligomeric plasticity of Hsp20 of *Sulfolobus acidocaldarius* protects environment-induced protein aggregation and membrane destabilization

Mousam Roy, Sayandeep Gupta, Somi Patranabis, Abhrajyoti Ghosh

PII: S0005-2736(18)30269-4  
DOI: doi:[10.1016/j.bbamem.2018.09.005](https://doi.org/10.1016/j.bbamem.2018.09.005)  
Reference: BBAMEM 82846  
To appear in: *BBA - Biomembranes*  
Received date: 14 June 2018  
Revised date: 29 August 2018  
Accepted date: 5 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The oligomeric plasticity of Hsp20 of *Sulfolobus acidocaldarius* protects environment-induced protein aggregation and membrane destabilization
