Thermal Effects and Photoluminescence of Zirconium Doped Hybrid Sol Gel Waveguide

Ha-Sung Kong, Kwang-Sun Kang

PII: S0167-577X(18)31475-7

DOI: <https://doi.org/10.1016/j.matlet.2018.09.097>

Reference: MLBLUE 24965

To appear in: *Materials Letters*

Received Date: 20 July 2018

Revised Date: 13 September 2018

Accepted Date: 18 September 2018

Please cite this article as: H-S. Kong, K-S. Kang, Thermal Effects and Photoluminescence of Zirconium Doped Hybrid Sol Gel Waveguide, *Materials Letters* (2018), doi: <https://doi.org/10.1016/j.matlet.2018.09.097>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Thermal Effects and Photoluminescence of Zirconium Doped Hybrid Sol Gel Waveguide
