

## Accepted Manuscript

In situ preparation of multicomponent polymer composite nanofibrous scaffolds with enhanced osteogenic and angiogenic activities

Sai Rama Krishna Meka, Vipul Agarwal, Kaushik Chatterjee

PII: S0928-4931(17)33282-4  
DOI: doi:[10.1016/j.msec.2018.09.055](https://doi.org/10.1016/j.msec.2018.09.055)  
Reference: MSC 8918  
To appear in: *Materials Science & Engineering C*  
Received date: 15 August 2017  
Revised date: 7 July 2018  
Accepted date: 20 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

***In Situ* Preparation of Multicomponent Polymer Composite Nanofibrous  
Scaffolds with Enhanced Osteogenic and Angiogenic Activities**

Sai Rama Krishna Meka, Vipul Agarwal, Kaushik Chatterjee\*
