

Accepted Manuscript

Novel dental composite with capability to suppress cariogenic species and promote non-cariogenic species in oral biofilms

Haohao Wang, Suping Wang, Lei Cheng, Yaling Jiang, Mary Anne S. Melo, Michael D. Weir, Thomas W. Oates, Xuedong Zhou, Hockin H.K. Xu

PII: S0928-4931(18)30513-7
DOI: doi:[10.1016/j.msec.2018.10.004](https://doi.org/10.1016/j.msec.2018.10.004)
Reference: MSC 8930
To appear in: *Materials Science & Engineering C*
Received date: 16 February 2018
Revised date: 10 September 2018
Accepted date: 1 October 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Novel dental composite with capability to suppress cariogenic species and promote non-cariogenic species in oral biofilms
