Novel insights into the adsorption mechanism of methylene blue onto organo-bentonite: Adsorption isotherms modeling and molecular simulation

Manel Bergaoui, Asma Nakhli, Yacine Benguerba, Mohamed Khalfaoui, Alessandro Erto, Felycia Edi Soetaredjo, Suryadi Ismadji, Barbara Ernst

PII: S0167-7322(18)34466-0
DOI: doi:[10.1016/j.molliq.2018.10.001](https://doi.org/10.1016/j.molliq.2018.10.001)
Reference: MOLLIQ 9746
To appear in: *Journal of Molecular Liquids*
Received date: 29 August 2018
Revised date: 26 September 2018
Accepted date: 1 October 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Novel insights into the adsorption mechanism of Methylene Blue onto
organo-bentonite: Adsorption isotherms modeling and Molecular
Simulation**
