

# Accepted Manuscript

Synthesis, characterization, X-ray diffraction study, *in-vitro* cytotoxicity, antibacterial and antifungal activities of nickel(II) and copper(II) complexes with acyl thiourea ligand

Kinza Ghazal, Sarah Shoaib, Mahira Khan, Samiullah Khan, Muhammad Khawar Rauf, Naqeebullah Khan, Amin Badshah, Muhammad Nawaz Tahir, Irshad Ali, Attiq-Ur- Rehman

PII: S0022-2860(18)31110-4

DOI: [10.1016/j.molstruc.2018.09.028](https://doi.org/10.1016/j.molstruc.2018.09.028)

Reference: MOLSTR 25662

To appear in: *Journal of Molecular Structure*

Received Date: 10 May 2018

Revised Date: 11 September 2018

Accepted Date: 12 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
