

# Accepted Manuscript

From the trimer, through the pentamer, to liquid water

Margaret Mandziuk

PII: S0022-2860(18)31089-5

DOI: [10.1016/j.molstruc.2018.09.009](https://doi.org/10.1016/j.molstruc.2018.09.009)

Reference: MOLSTR 25643

To appear in: *Journal of Molecular Structure*

Received Date: 30 November 2017

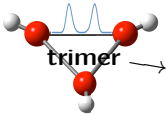

Revised Date: 28 August 2018

Accepted Date: 9 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

pentamer

ACCESSED MANUSCRIPT

An arrow points from the pentamer towards the liquid water.

liquid water

The background of the right side of the image is a photograph of blue water with ripples. Overlaid on this background are two semi-transparent diagrams: a diamond-shaped water dimer cluster on the left and a larger, more complex water cluster on the right. An arrow points from the pentamer towards the liquid water.
