

## Author's Accepted Manuscript

Bioinspired silica-infiltrated zirconia bilayers:  
Strength and interfacial bonding

Dominique Yukie Toyama, Larissa Marcia Martins Alves, Gabriela Freitas Ramos, Tiago Moreira Bastos Campos, Getúlio de Vasconcelos, Alexandre Luiz Souto Borges, Renata Marques de Melo

PII: S1751-6161(18)30816-6  
DOI: <https://doi.org/10.1016/j.jmbbm.2018.09.013>  
Reference: JMBBM2978

To appear in: *Journal of the Mechanical Behavior of Biomedical Materials*

Received date: 25 May 2018  
Revised date: 24 August 2018  
Accepted date: 11 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Title:** Bioinspired silica-infiltrated zirconia bilayers: Strength and interfacial bonding
