Title: Supported gold cluster catalysts prepared by solid grinding using a non-volatile organogold complex for low-temperature CO oxidation and the effect of potassium on gold particle size

Authors: Luong Xuan Dien, Tamao Ishida, Ayako Taketoshi, Quang-Duc Truong, Huynh Dang Chinh, Tetsuo Honma, Toru Murayama, Masatake Haruta

PII: S0926-3373(18)30882-8
DOI: <https://doi.org/10.1016/j.apcatb.2018.09.053>
Reference: APCATB 17036

To appear in: *Applied Catalysis B: Environmental*

Received date: 17-4-2018
Revised date: 2-9-2018
Accepted date: 16-9-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Supported gold cluster catalysts prepared by solid grinding using a non-volatile organogold complex for low-temperature CO oxidation and the effect of potassium on gold particle size
