This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- We describe a new approach for evaluating the contribution of Answer Validation
- We use real systems in order to obtain better conclusions for future research
- We show how Answer Validation modules improve Question Answering results
- We interpret results in order to offer important lessons for future research
