

## Accepted Manuscript

Title: Managing sulfate ions produced by sulfate radical-advanced oxidation process using sulfate-reducing bacteria for the subsequent biological treatment

Authors: Abbas Akbari, Mohsen Sadani, Mohammad Mehdi Amin, Fahimeh Teimouri, Mokhtar Mahdavi, Mahdi Hadi

PII: S2213-3437(18)30530-X  
DOI: <https://doi.org/10.1016/j.jece.2018.09.004>  
Reference: JECE 2625

To appear in:

Received date: 11-6-2018  
Revised date: 8-8-2018  
Accepted date: 1-9-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Managing sulfate ions produced by sulfate radical-advanced oxidation process using sulfate-reducing bacteria for the subsequent biological treatment
