Title: Biological relevance of Cytomegalovirus genetic variability in congenitally and postnatally infected children

Authors: Ganna Galitska, Matteo Biolatti, Marco De Andrea, Agata Leone, Alessandra Coscia, Luigi Bertolotti, Ugo Ala, Enrico Bertino, Valentina Dell'Oste, Santo Landolfo

PII: S1386-6532(18)30254-3
DOI: <https://doi.org/10.1016/j.jcv.2018.09.019>
Reference: JCV 4067

To appear in: *Journal of Clinical Virology*

Received date: 30-5-2018
Revised date: 24-9-2018
Accepted date: 28-9-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Biological relevance of Cytomegalovirus genetic variability in congenitally and postnatally infected children

Ganna Galitska^a, Matteo Biolatti^a, Marco De Andrea^{a,b}, Agata Leone^c, Alessandra Coscia^c, Luigi Bertolotti^d, Ugo Ala^e, Enrico Bertino^c, Valentina Dell'Oste^{a*}, and Santo Landolfo^{a*}.
