Solvent-free printing process for organic transistors using a naphthalene diimide bearing long alkyl chains

Atsuro Ohyama, Naoki Hirata, Naomi Oguma, Musubu Ichikawa

PII: S1566-1199(18)30503-2

DOI: [10.1016/j.orgel.2018.09.038](https://doi.org/10.1016/j.orgel.2018.09.038)

Reference: ORGELE 4904

To appear in: *Organic Electronics*

Received Date: 7 August 2018

Revised Date: 27 August 2018

Accepted Date: 25 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
