

Accepted Manuscript

Genetic Algorithm for Energy-Efficient Clustering and Routing in
Wireless Sensor Networks

Tianshu Wang , Gongxuan Zhang , Xichen Yang ,
Ahmadreza Vajdi

PII: S0164-1212(18)30209-7
DOI: <https://doi.org/10.1016/j.jss.2018.09.067>
Reference: JSS 10226

To appear in: *The Journal of Systems & Software*

Received date: 24 December 2017
Revised date: 21 September 2018
Accepted date: 22 September 2018

Please cite this article as: Tianshu Wang , Gongxuan Zhang , Xichen Yang , Ahmadreza Vajdi , Genetic Algorithm for Energy-Efficient Clustering and Routing in Wireless Sensor Networks, *The Journal of Systems & Software* (2018), doi: <https://doi.org/10.1016/j.jss.2018.09.067>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- The proposed method improves search efficiency of the optimal solution.
- The fitness function is based on energy consumption to improve energy efficiency.
- The proposed method considers the load balancing.
- Simulation shows that our proposed method is better than the existing algorithms.
