Effect of cationic lipid type in cationic liposomes for siRNA delivery into the liver by sequential injection of chondroitin sulfate and cationic lipoplex

Yoshiyuki Hattori, Nozomi Takeuchi, Mari Nakamura, Yuki Yoshiike, Masamitsu Taguchi, Hiroaki Ohno, Kei-ichi Ozaki, Hiraku Onishi

PII: \$1773-2247(18)30777-9

DOI: 10.1016/j.jddst.2018.09.022

Reference: JDDST 783

To appear in: Journal of Drug Delivery Science and Technology

Received Date: 14 July 2018

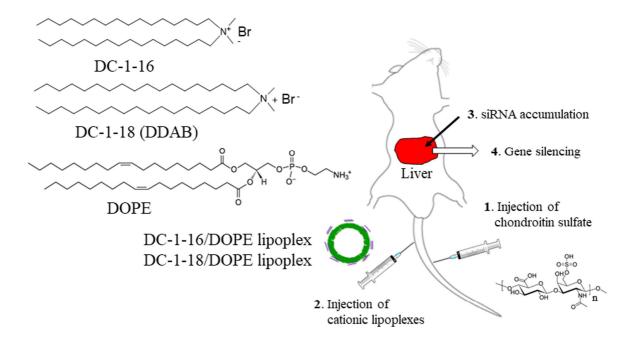

Revised Date: 21 September 2018 Accepted Date: 25 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

siRNAs were accumulated in the liver by sequential injection of chondroitin sulfate and cationic lipoplexes.
