

## Accepted Manuscript

Effect of ion concentration, solution and membrane permittivity on electric energy storage and capacitance

Mohammad Tajparast, Mladen I. Glavinović

PII: S0005-2736(18)30173-1  
DOI: [doi:10.1016/j.bbamem.2018.06.003](https://doi.org/10.1016/j.bbamem.2018.06.003)  
Reference: BBAMEM 82796  
To appear in: *BBA - Biomembranes*  
Received date: 25 October 2017  
Revised date: 28 May 2018  
Accepted date: 4 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**EFFECT OF ION CONCENTRATION, SOLUTION AND  
MEMBRANE PERMITTIVITY ON ELECTRIC ENERGY  
STORAGE AND CAPACITANCE**
