Purification and reconstitution of polyspecific H⁺/organic cation antiporter human MATE1

Tatsuya Kawasaki, Takuya Matsumoto, Yuma Iwai, Mamiyo Kawakami, Narinobu Juge, Hiroshi Omote, Tomohiro Nabekura, Yoshinori Moriyama

PII: S0005-2736(18)30200-1
DOI: doi:[10.1016/j.bbamem.2018.07.005](https://doi.org/10.1016/j.bbamem.2018.07.005)
Reference: BBAMEM 82814
To appear in: *BBA - Biomembranes*
Received date: 6 March 2018
Revised date: 27 June 2018
Accepted date: 11 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Purification and reconstitution of polyspecific H⁺/organic cation antiporter human MATE1
