Title: Development and characterization of yttrium-ferric binary composite for treatment of highly concentrated arsenate wastewater

Authors: Ling Yu, Yang Yu, Jingyi Li, J. Paul Chen

PII: S0304-3894(18)30598-3
DOI: <https://doi.org/10.1016/j.jhazmat.2018.07.068>
Reference: HAZMAT 19577

To appear in: *Journal of Hazardous Materials*

Received date: 3-4-2018
Revised date: 4-7-2018
Accepted date: 17-7-2018

Please cite this article as: Yu L, Yu Y, Li J, Chen JP, Development and characterization of yttrium-ferric binary composite for treatment of highly concentrated arsenate wastewater, *Journal of Hazardous Materials* (2018), <https://doi.org/10.1016/j.jhazmat.2018.07.068>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Development and characterization of yttrium-ferric binary composite for
treatment of highly concentrated arsenate wastewater**
