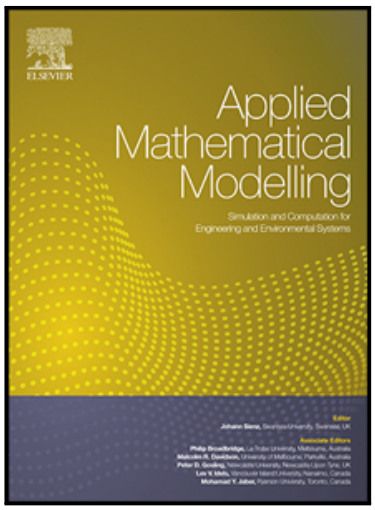
Accepted Manuscript



Artistic painting: A fractional calculus perspective

J. Tenreiro Machado, António M. Lopes

PII: S0307-904X(18)30451-7
DOI: https://doi.org/10.1016/j.apm.2018.09.009
Reference: APM 12461

To appear in: *Applied Mathematical Modelling*

Received date: 16 June 2018
Revised date: 24 August 2018
Accepted date: 6 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- Application of information theory in the analysis of painting evolution during the last 7 centuries
- Fractional order description of paintings
- Analysis of painting by means of fractional entropy
