

Unraveling the effect of salt chemistry on long-durability high-phosphorus-concentration anode for potassium ion batteries

Wenchao Zhang, Zhibin Wu, Jian Zhang, Guoping Liu, Nai-Hsuan Yang, Ru-Shi Liu, Wei Kong Pang, Wenwu Li, Zaiping Guo

PII: S2211-2855(18)30703-1  
DOI: <https://doi.org/10.1016/j.nanoen.2018.09.058>  
Reference: NANOEN3063

To appear in: *Nano Energy*

Received date: 31 August 2018  
Revised date: 24 September 2018  
Accepted date: 25 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
