Title: The effect of pH on the Lytic Activity of a Synthetic Mastoparan-like peptide in Anionic Model Membranes

Authors: Dayane S. Alvares, Taisa Giordano Viegas, João Ruggiero Neto

PII: S0009-3084(18)30131-2
DOI: <https://doi.org/10.1016/j.chemphyslip.2018.09.005>
Reference: CPL 4681

To appear in: *Chemistry and Physics of Lipids*

Received date: 6-7-2018
Revised date: 20-8-2018
Accepted date: 11-9-2018

Please cite this article as: Alvares DS, Giordano Viegas T, Ruggiero Neto J, The effect of pH on the Lytic Activity of a Synthetic Mastoparan-like peptide in Anionic Model Membranes, *Chemistry and Physics of Lipids* (2018), <https://doi.org/10.1016/j.chemphyslip.2018.09.005>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The effect of pH on the Lytic Activity of a Synthetic Mastoparan-like peptide in Anionic Model Membranes

*Dayane S. Alvares, Taisa Giordano Viegas and João Ruggiero Neto**
