This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Article Title: **UKF-based Remote State Estimation for Discrete
Artificial Neural Networks with Communication Bandwidth
Constraints**

Authors: **Yang** (given name) **Liu** (family name)^a,

Zidong (given name) **Wang** (family name)^b,

Donghua (given name) **Zhou** (family name)^{a,c}

Author Affiliations:

a: College of Electrical Engineering and Automation, Shandong University of Science and Technology,
Qingdao 266590, China.

b: the Department of Computer Science, Brunel University London, Uxbridge,
Middlesex, UB8 3PH, United Kingdom.

c: the Department of Automation, Tsinghua University,
Beijing 100084, China.
