Title: Spectroscopic characterization of supercritical carbon dioxide density change under isochoric heating in mesoporous glass

Authors: Vladimir Arakcheev, Alexey Bekin, Viacheslav Morozov

PII: S0896-8446(18)30495-9
DOI: <https://doi.org/10.1016/j.supflu.2018.09.014>
Reference: SUPFLU 4376

To appear in: *J. of Supercritical Fluids*

Received date: 26-7-2018
Revised date: 24-9-2018
Accepted date: 26-9-2018

Please cite this article as: Arakcheev V, Bekin A, Morozov V, Spectroscopic characterization of supercritical carbon dioxide density change under isochoric heating in mesoporous glass, *The Journal of Supercritical Fluids* (2018), <https://doi.org/10.1016/j.supflu.2018.09.014>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Spectroscopic characterization of supercritical carbon dioxide density change under isochoric heating in mesoporous glass
