Low back pain patients' perspectives on long-term adherence to home-based exercise programmes in physiotherapy

Jeannette Saner, Esther M. Bergman, Rob de Bie, Judith M. Sieben

PII: S2468-7812(18)30340-0

DOI: [10.1016/j.msksp.2018.09.002](https://doi.org/10.1016/j.msksp.2018.09.002)

Reference: MSKSP 1926

To appear in: *Musculoskeletal Science and Practice*

Received Date: 17 July 2017

Revised Date: 2 August 2018

Accepted Date: 3 September 2018

Please cite this article as: Saner, J., Bergman, E.M., de Bie, R., Sieben, J.M., Low back pain patients' perspectives on long-term adherence to home-based exercise programmes in physiotherapy, *Musculoskeletal Science and Practice* (2018), doi: <https://doi.org/10.1016/j.msksp.2018.09.002>.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Low back pain patients' perspectives on long-term adherence to home-based exercise programmes in physiotherapy
