Cause and countermeasures for the symmetric effect in borehole-to-surface electrical resistivity tomography

Haoran Wang, Chih-Ping Lin

PII: S0926-9851(17)31113-8
DOI: doi:[10.1016/j.jappgeo.2018.08.012](https://doi.org/10.1016/j.jappgeo.2018.08.012)
Reference: APPGEO 3583
To appear in: *Journal of Applied Geophysics*
Received date: 21 December 2017
Revised date: 20 August 2018
Accepted date: 26 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Cause and Countermeasures for the Symmetric Effect in Borehole-to-Surface
Electrical Resistivity Tomography
