Tight carbonate reservoir characterization based on the modified rock physics model

Bonan Li, Hui Shen, Shouli Qu, Ding Wang, Cai Liu

PII: S0926-9851(18)30094-6
DOI: doi:[10.1016/j.jappgeo.2018.09.012](https://doi.org/10.1016/j.jappgeo.2018.09.012)
Reference: APPGEO 3599
To appear in: *Journal of Applied Geophysics*
Received date: 3 February 2018
Accepted date: 12 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Tight carbonate reservoir characterization based on the modified rock physics model
