

Foreword

The ASEAN-Turkey ASLI Conferences on QoL 2015: AicQoL 2015Jakarta with the "*Quality of Life in the Built and Natural Environment*" as the main theme managed to attract an overall total of 150 numbers of approved abstracts Those finally transformed into 100 approved full papers for this Proceeding.

Majority of the papers (88%) were contributed by Malaysia. This was followed by Indonesia (8%), Turkey (2%), and 1% each from Taiwan and Thailand. The full papers approved were simply grouped generally under 18 sub-categories, although quite a number could have been easily placed under more than one category. The top four categories in order of popularity involved the following environments:- Hospitality/Tourist Environment (15%), Local Heritage Environment (11%), Construction Environment (10%), and 9% each for Residential Environment (RE) and Urban Environment (UE).

The Association of Malaysian Environment-Behaviour Researchers (AMER), the main organiser of AicQoL2015Jakarta, together with the Co-Chair, ABRAIndonesia, and the Co-Host, Department of Psychology, Faculty of Humanities, BINUS University, Jakarta, congratulate all contributors in making the conference a tremendous success!

Hopefully this conference will inspire and encourage more researchers to participate in our forthcoming serial conferences to be held annually. The increase in participation shall be most highly likely as the Conference Proceedings shall be published in Elsevier's *Procedia Social and Behavioural Sciences* accessible online in www.ScienceDirect.com. Furthermore, both AcE-Bs and AicE-Bs conferences have been indexed by Thomson Reuters CPCI (formerly the ISI Proceedings).

Thanks again for your continuous support as always, and hope for an enlightening conference!
