Accepted Manuscript

Fabrication and evaluation of a carbon quantum dot/gold nanoparticle nanohybrid material integrated onto planar micro gold electrodes for potential bioelectrochemical sensing applications

Vuslat Buk, Martyn E. Pemble, Karen Twomey

PII: S0013-4686(18)32268-0

DOI: 10.1016/j.electacta.2018.10.038

Reference: EA 32835

To appear in: Electrochimica Acta

Received Date: 17 July 2018

Revised Date: 7 September 2018

Accepted Date: 7 October 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
