

## Accepted Manuscript

Title: An Overview of Process Systems Engineering Approaches for Process Intensification: State of the Art

Authors: Yuhe Tian, Salih Emre Demirel, M. M. Faruque Hasan, Efstratios N. Pistikopoulos

PII: S0255-2701(18)30278-2  
DOI: <https://doi.org/10.1016/j.cep.2018.07.014>  
Reference: CEP 7342

To appear in: *Chemical Engineering and Processing*

Received date: 5-3-2018  
Revised date: 15-5-2018  
Accepted date: 23-7-2018

Please cite this article as: Tian Y, Demirel SE, Hasan MMF, Pistikopoulos EN, An Overview of Process Systems Engineering Approaches for Process Intensification: State of the Art, *Chemical Engineering and Processing - Process Intensification* (2018), <https://doi.org/10.1016/j.cep.2018.07.014>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# An Overview of Process Systems Engineering Approaches for Process Intensification: State of the Art
