Accepted Manuscript

Oxygen-enriched carbon nanotubes as a bifunctional catalyst promote the oxygen reduction/evolution reactions in Li-O₂ batteries

Lei Qin, Wei Lv, Wei Wei, Feiyu Kang, Dengyun Zhai, Quan-Hong Yang

PII: S0008-6223(18)30940-0

DOI: 10.1016/j.carbon.2018.10.025

Reference: CARBON 13543

To appear in: *Carbon*

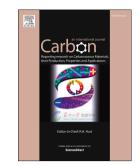

Received Date: 6 September 2018

Revised Date: 3 October 2018

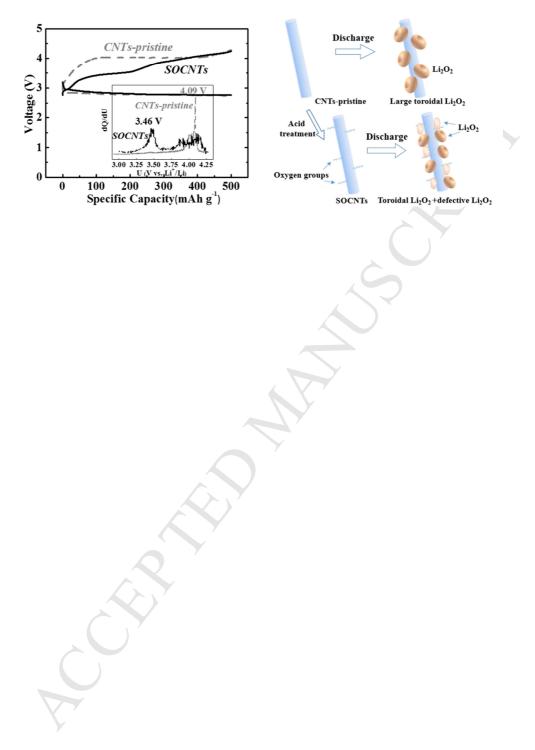

Accepted Date: 6 October 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
