Reward-Based Monte Carlo-Bayesian Reinforcement Learning for Cyber Preventive Maintenance

Theodore T. Allen, Sayak Roychowdhury, Enhao Liu

PII: S0360-8352(18)30467-4
DOI: <https://doi.org/10.1016/j.cie.2018.09.051>
Reference: CAIE 5436

To appear in: *Computers & Industrial Engineering*

Received Date: 20 February 2018
Revised Date: 26 September 2018
Accepted Date: 27 September 2018

Please cite this article as: Allen, T.T., Roychowdhury, S., Liu, E., Reward-Based Monte Carlo-Bayesian Reinforcement Learning for Cyber Preventive Maintenance, *Computers & Industrial Engineering* (2018), doi: <https://doi.org/10.1016/j.cie.2018.09.051>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Reward-Based Monte Carlo-Bayesian Reinforcement Learning for Cyber Preventive Maintenance
