

# IMACS Calendar of Events

April 2007

## **IMACS, the International Association for Mathematics and Computers in Simulation**

Founded in 1955

### **Honorary President:**

Professor Robert Vichnevetsky, Dept. of Computer Science, Rutgers University, New Brunswick, NJ08903, USA

### **President:**

Professor Robert Beauwens, Brussels Free University, Service de Metrologie Nucleaire, Ave. F.D. Roosevelt, 50, 1050 Brussels, Belgium

### **Secretariats:**

IMACS, Dept. of Computer Science, Rutgers University, New Brunswick, NJ08903, USA

IMACS, C.P.165/84, U.L.B., Ave. F.D. Roosevelt, 50, 1050 Brussels, Belgium /email: [imacs@metronu.ulb.ac.be](mailto:imacs@metronu.ulb.ac.be)

All material concerning this IMACS Calendar of Events (including proposals for new IMACS conferences) is to be sent to:

### **European Region:**

IMACS - Universite libre de Bruxelles - CP  
165/84  
50 Ave. F.D. Roosevelt CP  
B-1050 Brussels, Belgium

### **American/Pacific Region:**

IMACS - Dept. of Computer Science  
Rutgers University - Hill Center  
New Brunswick NJ 08903 USA

**Date:** May 22–24, 2007

**Place:** Hanover, Germany

**Boundary Elements - Theory and Applications**

(BETA 2007)(Co-Sponsored by IMACS)

<http://www.ifam.uni-hannover.de/beta2007/>

**Organizers:** Carsten Carstensen, Norbert Heuer, Matthias Maischak, Ernst P. Stephan

**Topics:** BE adaptivity, error analysis, FE-BE coupling, hp-versions, fast algorithms, engineering applications (electro-magnetism, contact, crack etc.).

Leibniz  
Universität Hannover 

**Date:** May/June 2007

**Place:** UK

**Sixth IMACS Seminar on Monte Carlo Methods**

(MCM 2007)

<http://www.mcm2007.reading.ac.uk/>

**Contact:** Vassil Alexandrov, **Email:** v.n.alexandrov@reading.ac.uk

The purpose of the seminar is to provide a forum for the presentation of recent advances in the analysis, implementation, and applications of Monte Carlo simulation techniques and, in particular, to stimulate the exchange of information between specialists in these areas.

**Date:** July 11–13, 2007

**Place:** Granada, Spain

**The International Conference on Approximation Methods and Numerical Modelling in Environment and Natural Resources**

(MAMERN' 07) (Co-Sponsored by IMACS)

<http://www.ugr.es/~mamern07/home.htm>

**Contact:** mamern07@ugr.es

**Goals:**

- Gather the researchers interested on the fields of approximation, numerical modelling and their applications in the environment sciences and natural resources.
- Reinforce the scientific interchange between researches from different countries, with special emphasis on the Mediterranean basin and neighbourhood.
- Encourage young researchers to present the results of their scientific works.
- Promote the scientific research in the field of mathematics applied to environment sciences and natural resources.
- Enhance the fluidity of scientific interchange between university competences and socio-economic operators.
- Help new international research projects to arise by facilitating contacts between tentative partners.

Universidad de Granada

**Date:** July 16–20, 2007

**Place:** Zurich, Switzerland

**6th International Congress on Industrial and Applied Mathematics**

(ICIAM07) (Co-Sponsored by IMACS) <http://www.iciam07.ch/>

**Director:** Prof. Rolf Jeltsch

**Email:** info@iciam07.ch
