

Tetrahedron: *Asymmetry* Vol. 26, No. 7, 2015

Contents

ARTICLES

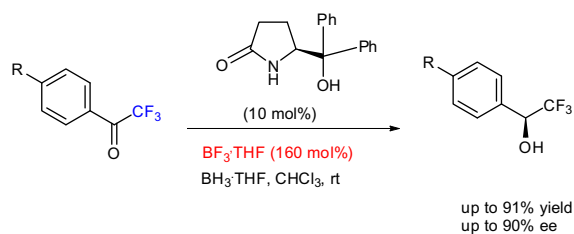

Structural features of *N*-benzylated- β -amino acid methyl esters essential for enantiodifferentiation by lipase B from *Candida antarctica* in hydrolytic reactions pp 325–332

Hiram Rangel, Manuel Carrillo-Morales, Juan M. Galindo, Edmundo Castillo, Arturo Obregón-Zúñiga, Eusebio Juaristi, Jaime Escalante*

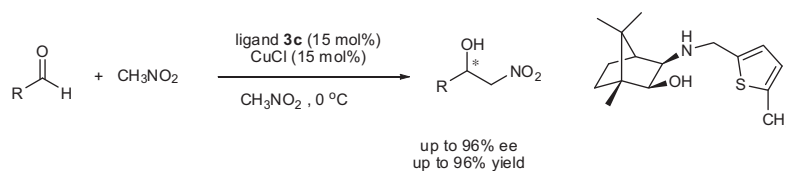

Effect of BF_3 on the enantioselective reduction of trifluoromethyl ketones using a chiral lactam alcohol with borane pp 333–337

Yuki Harauchi, Chihiro Takakura, Toshio Furumoto, Ryo C. Yanagita, Yasuhiro Kawanami*

Asymmetric Cu-catalyzed Henry reaction promoted by chiral camphor-derived β -amino alcohols with a thiophene moiety pp 338–343

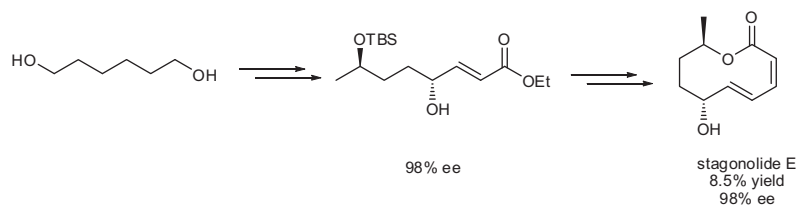

Feng Xu*, Lei Yan, Chao Lei, Hao Zhao, Gaoqiang Li

A concise enantioselective synthesis of marine macrolide-stagonolide E via organocatalysis

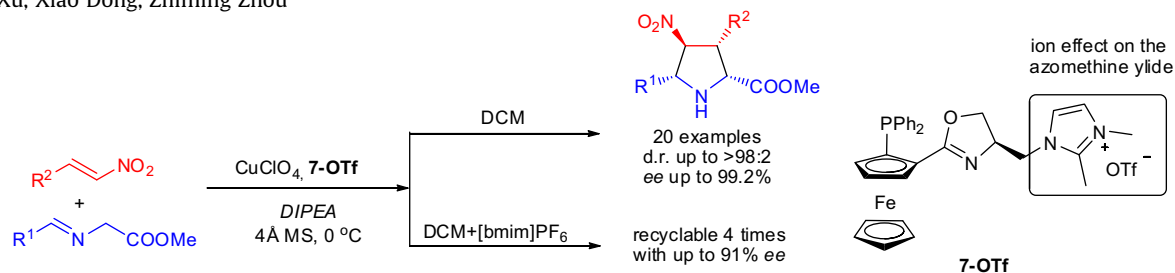

pp 344–349

Soumen Dey, Arumugam Sudalai*

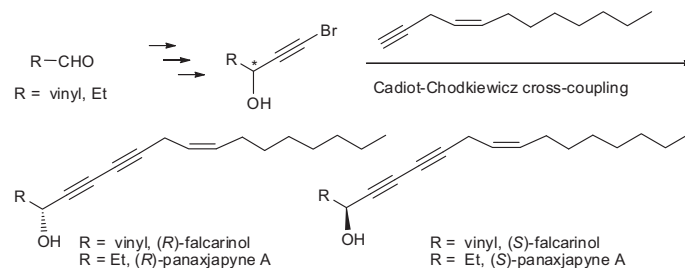

The design, synthesis and application of imidazolium-tagged ferrocenyl oxazoline phosphine ligands for the asymmetric 1,3-dipolar cycloaddition of azomethine ylides with nitroalkenes: ion effect for enhancing the reactivity, stereoselectivity and recyclability

Li Dai, Di Xu, Xiao Dong, Zhiming Zhou*

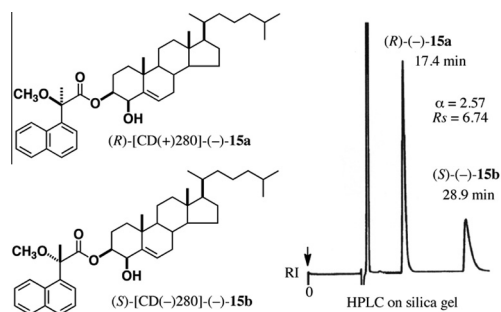

Total synthesis of each enantiomer of falcarinol and panaxjapyne A via asymmetric catalytic alkynylation of an aldehyde

Yan-Qing Yang, Shuo-Ning Li, Jiang-Chun Zhong, Yun Zhou, Hao-Zhe Zeng, Hong-Jie Duan, Qing-Hua Bian*, Min Wang

Application of the modified 2-methoxy-2-(1-naphthyl)propionic (M α NP) acid method to steroidal alcohols and the most efficient HPLC separation found in diastereomeric M α NP esters

Yusuke Kasai, Nobuyuki Harada*
