Mental health of voluntary canine search and rescue workers in Germany – Mission-related stressors and need for future interventions. A pilot investigation

Mareike Augsburger

PII: S2212-4209(19)30560-6

DOI: <https://doi.org/10.1016/j.ijdr.2019.101409>

Reference: IJDRR 101409

To appear in: *International Journal of Disaster Risk Reduction*

Received Date: 16 May 2019

Revised Date: 9 November 2019

Accepted Date: 21 November 2019

Please cite this article as: M. Augsburger, Mental health of voluntary canine search and rescue workers in Germany – Mission-related stressors and need for future interventions. A pilot investigation, *International Journal of Disaster Risk Reduction* (2019), doi: <https://doi.org/10.1016/j.ijdr.2019.101409>.

This is a PDF file of an article that has undergone enhancements after acceptance, such as the addition of a cover page and metadata, and formatting for readability, but it is not yet the definitive version of record. This version will undergo additional copyediting, typesetting and review before it is published in its final form, but we are providing this version to give early visibility of the article. Please note that, during the production process, errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
