

Journal Pre-proof

Improved linear profiling methods under classical and Bayesian setups: An application to chemical gas sensors

Tahir Abbas, Tahir Mahmood, Muhammad Riaz, Muhammad Abid

PII: S0169-7439(19)30658-6

DOI: <https://doi.org/10.1016/j.chemolab.2019.103908>

Reference: CHEMOM 103908

To appear in: *Chemometrics and Intelligent Laboratory Systems*

Received Date: 12 October 2019

Revised Date: 7 December 2019

Accepted Date: 9 December 2019

Please cite this article as: T. Abbas, T. Mahmood, M. Riaz, M. Abid, Improved linear profiling methods under classical and Bayesian setups: An application to chemical gas sensors, *Chemometrics and Intelligent Laboratory Systems* (2020), doi: <https://doi.org/10.1016/j.chemolab.2019.103908>.

This is a PDF file of an article that has undergone enhancements after acceptance, such as the addition of a cover page and metadata, and formatting for readability, but it is not yet the definitive version of record. This version will undergo additional copyediting, typesetting and review before it is published in its final form, but we are providing this version to give early visibility of the article. Please note that, during the production process, errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
