Electron beam assisted synthesis of silver nanoparticle in chitosan stabilizer: Preparation, stability and inhibition of building fungi studies

Kanokwan Jannoo, Churapa Teerapatsakul, Adisak Punyanut, Wanvimol Pasanphan

PII: S0969-806X(15)00123-1
DOI: <http://dx.doi.org/10.1016/j.radphyschem.2015.03.035>
Reference: RPC6758

To appear in: *Radiation Physics and Chemistry*

Received date: 1 February 2015

Revised date: 23 March 2015

Accepted date: 29 March 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Electron beam assisted synthesis of silver nanoparticle in chitosan stabilizer: preparation, stability and inhibition of building fungi studies
