A macroscopic investigation to interpret the absorption and desorption of hydrogen in $\text{LaNi}_{4.85}\text{Al}_{0.15}$ alloy using the grand canonical ensemble

Nesrine Mechi, Ismahene Ben Khemis, Houcine Dhaou, Salah Knani, Abdelmajid Jemni, Abdelmottaleb Ben Lamine

PII: S0378-3812(16)30309-0

DOI: [10.1016/j.fluid.2016.06.033](https://doi.org/10.1016/j.fluid.2016.06.033)

Reference: FLUID 11151

To appear in: *Fluid Phase Equilibria*

Received Date: 31 March 2016

Revised Date: 13 June 2016

Accepted Date: 16 June 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Fig – Desorption isotherms for T =313 K, T=303 K and T=298 K.
