Roles of specific lipid species in the cell and their molecular mechanism

Tomohiro Kimura, William Jennings, Richard M. Epanand

PII: S0163-7827(15)30032-1
DOI: doi: [10.1016/j.plipres.2016.02.001](https://doi.org/10.1016/j.plipres.2016.02.001)
Reference: JPLR 905

To appear in:

Received date: 16 December 2015
Revised date: 4 February 2016
Accepted date: 10 February 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Roles of Specific Lipid Species in the Cell and Their Molecular Mechanism
