

Author/Title Index

A

- Aircraft accidents and incidents associated with visual effects from bright light exposures during low-light flight operations (Nakagawara et al.), 415-420
- Aldridge C. The glaucoma paradox (In perspective), 320-323
- Allison CL, Gabriel H, Schlange D, and Fredrickson S. An optometric approach to patients with sensory integration dysfunction, 644-651
- And the treatment goes to . . . (Editor's perspective) (Freeman), 199-200
- Anterior segment complications secondary to continuous positive airway pressure machine treatment in patients with obstructive sleep apnea (Harrison et al.), 352-355
- Armstrong JR (*see* Hicks and Armstrong), 42-43
- The art of communication (Editor's perspective) (Freeman), 42-43
- Asefzadeh B (*see* Pasquale et al.), 657-663
- An assessment of regional differences in corneal thickness in normal human eyes, using the Orbscan II or ultrasound pachymetry (Doughty and Jonuscheit), 181-190
- Aumiller MS. Optic disc drusen: Complications and management, 10-16
- Autrey JJ (*see* Fehel et al.), 135-140
- Avoiding harassment and discrimination as an optometric employer (Ortmann-Vincenzo), 615-616

B

- Bailey RN. Optometric initiatives addressing the global imperative for providing accessible eye and vision care worldwide (In perspective), 259-262
- Bass SJ, Cooper J, Feldman J, and Horn D. Comparison of an automated confrontation testing device versus finger counting in the detection of field loss, 390-395
- Beckerman S (*see* McMahon and Beckerman), 78-87
- Beebe KL. Optometric hospital practice, 194-196
- Bejar L (*see* Falco et al.), 162-166
- Bennett E (*see* Tyhurst et al.), 596-604

- Besada E, Hunter M, and Bittner B. An uncommon presentation of orbital apex syndrome, 339-343
- Besada E (*see* Reynolds et al.), 582-587
- Better recall system equals greater practice revenue (Gerber), 678-679
- Bilateral familial Duane's retraction syndrome (Zhu-Tam and Gurwood), 465-468
- Bittner B (*see* Besada et al.), 339-343
- Bodack MI. A warfarin-induced subconjunctival hemorrhage, 113-118
- Brinig MF, Wilkinson ME, Daly JM, Jogerst GJ, and Stone EM. Vision standards for licensing and driving (In perspective), 439-445
- Brown WL (*see* Schornack et al.), 17-22

C

- Cafeteria plans 101: Tax savings made to order (Hicks and Armstrong), 42-43
- Caron P, St-Jacques J, and Michaud L. Clinical discussion on the relative efficacy of 2 surfactant-containing lubricating agents in removing proteins during contact lens wear, 23-29
- A case of primary congenital glaucoma: A diagnostic dilemma (Girgis and Frantz), 167-175
- 'Cause I said so . . . (Editor's perspective) (Freeman), 437-438
- Changes in accommodative and vergence responses when viewing through near addition lenses (Jiang et al.), 129-134
- Chew R. Destruction of the orbit and globe by recurrence of basal cell carcinoma, 344-351
- Chin K, Finger PT, Kurli M, Tena LB, and Reddy S. Second cancers discovered by ¹⁸FDG PET/CT imaging for choroidal melanoma, 396-401
- Chous AP (*see* Hom and Chous), 629-643
- Ciuffreda KJ, Kapoor N, Rutner D, Suchoff IB, Han M, and Craig S. Occurrence of oculomotor dysfunctions in acquired brain injury: A retrospective analysis, 155-161
- Clinical discussion on the relative efficacy of 2 surfactant-containing lubricating agents in removing proteins during contact lens wear (Caron et al.), 23-29
- Cohen EJ (*see* Sambursky et al.), 236-239
- Communications: Change and opportunity in diabetes vision health care (Guest editorial) (Duenas), 565-566

- Comparing the effectiveness of vision screenings as part of the school entrance physical examination to comprehensive vision examinations in children ages 3 to 6: An exploratory study (Zaba et al.), 514-522
- Comparison of an automated confrontation testing device versus finger counting in the detection of field loss (Bass et al.), 390-395
- Competing with "readers" and drugstore sunglasses (Gerber), 40-41
- Conlin PR (*see* Pasquale et al.), 657-663
- Cooper J (*see* Bass et al.), 390-395
- Costich J (*see* Zaba et al.), 514-522
- Craig S (*see* Ciuffreda et al.), 155-161
- Cron M (*see* Mika et al.), 225-231

D

- Daly JM (*see* Brinig et al.), 439-445
- The debits and credits of long-term care insurance (Hicks), 480-481
- December: Retrospection month (Editor's perspective) (Freeman),
- DeRosier W (*see* Major et al.), 534-541
- Destruction of the orbit and globe by recurrence of basal cell carcinoma (Chew), 344-351
- Detection of glaucoma-like optic discs in a diabetes teleretinal program (Pasquale et al.), 657-663
- Devenport J (*see* Richer et al.), 213-219
- Diabetic eye examination report (Jones and Nichols), 588-595
- Diagnosis and management of Thygeson's superficial punctate keratitis (Duszak), 333-338
- Dilation efficacy: Is 1% cyclopentolate enough? (Hug and Olitsky), 119-121
- Diller R and Thompson K. Visual loss secondary to acquired immunodeficiency virus-related progressive multifocal leukoencephalopathy demonstrating clinical improvement with highly active antiretroviral therapy, 63-70
- Doughty MJ and Jonuscheit S. An assessment of regional differences in corneal thickness in normal human eyes, using the Orbscan II or ultrasound pachymetry, 181-190
- Duenas MR. Communications: Change and opportunity in diabetes vision health care (Guest editorial), 565-566
- Dunphy RW (*see* Pasquale et al.), 657-663

Duszak RS. Diagnosis and management of Thygeson's superficial punctate keratitis, 333-338
