

Abstracts of free papers presented at the annual meeting of the Obstetric Anaesthetists' Association, Torquay, 21 & 22 May 2015

(The presenter is underlined)

ORAL PRESENTATIONS

- O1** **TEG demonstrates that tinzaparin 4500 units has no detectable anticoagulant activity after caesarean section** S6
S Griffiths, C Woo, V Mansoubi, A Riccoboni, A Sabharwal, S Napier, M Columb, M Laffan, G Stocks
- O2** **Take home analgesia after caesarean section (THAnCS): a regional survey of practice and patient experience** S6
SWARM, SWARM
- O3** **Epidural fixation devices in labour: a randomised controlled trial** S7
P M Odor, S Bampoe, E Evans
- O4** **Chronic pain after caesarean section** S7
A Koelewyn, NJ Beale, R Russell, O Kciuk, L Buck, J Quinlan, CE Warnaby
- O5** **The pleth variability index and blood pressure during spinal anaesthesia for caesarean section** S8
S Handa, I Wrench, L Hammon, R Mahajan
- O6** **Apnoeic oxygenation in pregnancy: a modelling investigation** S8
A Pillai, M Chikhani, JG Hardman
- O7** **Enhanced recovery after elective caesarean section, now standard practice for all** S9
N Aldamluji, K Dasari, C Tower, K MacLennan
- O8** **Heat flux: an additional driver of physiological shivering?** S9
CJ Mullington, S Malhotra, DA Low, PH Strutton
- O9** **Effect of active warming for elective caesarean delivery on maternal and neonatal outcomes: a meta-analysis** S10
P Sultan, AS Habib, Y Cho, B Carvalho
- O10** **Platelets in postpartum haemorrhage: who needs them?** S10
R Jones, V Hamlyn, RE Collis, T Edey, D Bruynseels, D Burkett-St Laurent, G Lilley, PW Collins, L De Lloyd

POSTER PRESENTATIONS

- P1** **A comparison of the accuracy and precision of four non-invasive core temperature thermometers during cold stress and rewarming** S11
CJ Mullington, S Malhotra, CG Wilkinson, DA Low, PH Strutton
- P2** **Changes in morphology of the pulse oximeter waveform during the onset of spinal anaesthesia for caesarean section** S11
L Hammon, I Wrench, S Handa, R Mahajan
- P3** **Enhanced recovery after elective caesarean section: delayed discharge from the postoperative recovery unit is associated with delayed discharge from hospital** S12
A Panickar, R Pothireddy, I Wrench
- P4** **Epidural pressure simulator: understanding your technique** S12
R Jones, M Oliver, JE Hall, RE Collis
- P5** **In situ simulation detects serious latent errors on the labour ward** S13
VK Sinha, M Purva
- P6** **It's not just labour that hurts: a service evaluation study of acute pain service involvement in a tertiary referral obstetric unit** S13
SD Balakrishnan, A Banks, A Pillai
- P7** **National survey of anaesthetic staffing on obstetric units: are we meeting standards?** S14
J Mullender, J Stone, G Baigel
- P8** **Neuropathic features of chronic pain after caesarean section** S14
MH Lee, A Koelewyn, R Russell, O Kciuk, L Buck, NJ Beale, J Quinlan, CE Warnaby
- P9** **Novel mobility assessment tool for use in enhanced recovery for caesarean sections** S15
B Parsons, R West, J Mawby, R Yau
- P10** **Oral carbohydrate loading for caesarean delivery** S15
A Clark, A Soosay, K Litchfield, R Agaram

- P11 A baseline service evaluation of time to discharge following caesarean section at Royal Cornwall Hospital, Truro** S16
BP Scrace, [C Pritchett](#), C Ralph, A Ratcliffe
- P12 Adapting UK enhanced recovery after caesarean section to a tertiary hospital in New Zealand** S16
SP Rhodes, [MJP Drake](#), MW Moll, MP Steynor
- P13 An audit cycle of time to discharge and readmission rates following elective caesarean section after introduction of an enhanced recovery programme** S17
[K Barr](#), V Smith, J Wilson, R Swanton, K Rajendran, K Thanassouli
- P14 Analgesia post-caesarean section: a review of serial audits following opioid prescribing changes** S17
KID Patel, F Roked, [A Chu](#), S Saleem, D Cochran
- P15 Analgesic provision following caesarean section: exploring new avenues to improve quality** S18
[L Nicholls](#), N Patel
- P16 Enhanced recovery in elective caesarean sections: a reduced length of stay and cost savings** S18
[B Parsons](#), R Yau
- P17 Introduction of an enhanced recovery pathway for elective caesarean section: clinical outcomes and patient satisfaction** S19
[D Pachter](#), K Whitehouse, S Jones, D Morland, S Ratnaparkhi, S Saxena, M Smith, N Redfern
- P18 Post-operative analgesia after caesarean section: facilitating early discharge** S19
[A Pillai](#), A Banks, L Woods
- P19 Regular tramadol for post caesarean section analgesia: a complete audit cycle** S20
[E M Casely](#), C Papageorgiou, R Gupta, M Nel
- P20 What to expect when you're expecting** S20
[L Nicholls](#), L Oswald, N Patel
- P21 A case for changing the induction agent of choice for obstetric anaesthesia?** S21
[R Hilloowalla](#), M Turner
- P22 A multicentre comparison of mental workload and non-technical skills during elective caesarean delivery** S21
[M Turner](#), A Byrne, E Lewis, A Murphy, M Chawathe, P Thomas
- P23 A multifaceted approach to reducing obstetric failed intubations; a completed audit cycle** S22
[L Hammon](#), S Asif, F Roberts, M Woolnough
- P24 Effect of intrathecal morphine dose for caesarean delivery on maternal and neonatal outcomes: a meta-analysis** S22
[P Sultan](#), S Halpern, S Patel, E Pushpanathan, B Carvalho
- P25 Identification of parturients at risk of emergency obstetric surgical intervention and anaesthesia: implications for oral intake in labour** S23
[JK Warren](#), EL Combeer
- P26 Keep calm and carry on? A survey of accepted practice following failed intubation for emergency caesarean delivery.** S23
[D Soltanifar](#), S Harrison, D Bogod, B Carvalho, P Sultan
- P27 Obstetric general anaesthetic safety checklist: guideline development through team simulation** S24
[B James](#), H Bryant, H Swales, S Al-Rawi
- P28 Postoperative compliance with low-molecular-weight heparin following caesarean section: a quality improvement project** S24
[E Beattie](#), S Young
- P29 Skin-to-skin during elective caesarean sections: a multidisciplinary staff perspective** S25
[J Longbottom](#), C Taylor, G Rennie
- P30 A 12-month service evaluation of epidural labour analgesia comparing continuous infusion with infusion and programmed intermittent boluses** S25
[M Gwinnutt](#), P Yoxall, S Raftery
- P31 A comparison of analgesic effectiveness of different combined spinal-epidural spinal dose regimens in labour analgesia** S26
[E Wong](#), Y Poonawala
- P32 A two-year observational study of obstetric patients comparing body mass index, depth of epidural space and mode of delivery** S26
[T Furniss](#), SK Fisher, CA Gerrard, P F Yoxall
- P33 Analysis of epidural catheter failures in 1008 combined spinal-epidurals for labour analgesia** S27
[S Griffiths](#), K Batte, M Columb, G Stocks
- P34 Evaluation of service provision of patient-controlled epidural analgesia in a district general hospital with a change in local anaesthetic concentration** S27
[I Walker](#), S Jeyanthan, C Brennan, N Parry
- P35 Maternal fever and epidural insertion: an OAA approved survey** S28
YM Liu, [SD Patel](#), W Mon, R Fernando, M Columb, P Sultan
- P36 Non-preeclamptic thrombocytopenia in pregnancy and neuraxial blockade: an OAA approved survey of practice** S28
[M Salman](#), J Scott, S Robinson
- P37 Spinal dosing for labour combined spinal-epidural analgesia** S29
[E Wong](#), Y Poonawala
