

## SUBJECT INDEX TO VOLUME 9

**Ablation.** *see also* Catheter ablation; Cryoablation;

Radiofrequency ablation

## AF

MRI of atrial scar and, 2003

visually guided laser balloon catheter, durability, 919, 926

AV node, for electrical storm after CRT, 2059

cardiomyopathy, premature ventricular complex-induced, 92

cavotricuspid isthmus, adenosine injection and, 1942

circumferential antral, left atrial tachycardia after, 1660

endoscopic PVI, varying energy settings, 1380

epicardial, for ventricular tachycardia, EP News, 159

focal impulse and rotor modulation, persistent AF, 1436, 1440

inadvertent electrical superior vena cava isolation during, 1177

left atrial, transseptal, complication, 2089

postinfarction ventricular tachycardia, right ventricular mapping and, 938

prediction of response, continuous monitoring during blanking period, 1375

pulmonary vein isolation, *versus* HIFU with safety algorithm, 407

refractory VT, coronary venous ethanol infusion, 1637, 1640

right ventricle, traumatic aneurysm, 1501

successful, pacemap of delta wave, 1321

surgical, 2012 HRS/EHRA/ECAS Expert Consensus Statement, 632

targeted, photodynamic therapy, cardiac cells, 1504, 1510

VT, percutaneous left ventricular assist device, 1168

**Accessory pathways**

ablation of, 2, 8

atriofascicular, predictors in catheter ablation, 704

atrioventricular, traumatized, pacemap of delta wave for, 1321

decrementally conducting, characteristics, 850

in para-Hisian pacing, 624

unusual long RP tachycardia, mechanism, 1898

wide complex tachycardia, 996

**Acetylcholine**

release, vagus nerve circuit, EP News, 158

**Acoustic radiation force impulse imaging**

intracardiac, ablation lesions, 1855, 1863

**Action potentials**

arrhythmia formation mechanism, long QT syndrome, 275, 283

arrhythmogenic, electrogenic mechanism, 1698

duration

refractory period in acute ischemia, 977, 983

role of atrial natriuretic peptides, 610

propagation, transverse-axial tubular system, EP News, 1179

ventricular myocytes, L-type calcium current and sodium-calcium exchange current, 134, 143

**Acute coronary syndromes**

suspected, glucose-insulin-potassium effects, EP News, 1180

**Adenosine**

dormant transisthmus conduction revealed by, 1942

effects on dormant conduction, after catheter ablation, 1785

**Adrenergic beta-antagonists**

AF, Medicare beneficiaries, 1403

 **$\beta$ 1-Adrenergic receptor**

prediction, rate control therapy in AF, EP News, 472

**Adverse events**

ICD implantation, proceduralist-directed, nurse-administered propofol, 342, 347, 349

**Afterdepolarization**

delayed, chronic AF, EP News, 1340

early

bi-stable wave propagation and, arrhythmias, 115, 123

long QT, ranolazine effects, 953

new calcium conductance, EP News, 158

sodium-calcium exchanger effects, 570, 579

**Aging**

catecholamine ratios and, tilt-induced vasovagal syncope, 1847, 1853

**Ajmaline**

Brugada syndrome, effects of right bundle branch block on ECG pattern, 974

effects on electrocardiogram, in early repolarization, 232, 240

**Alternans**diastolic intracellular calcium, Andersen-Tawil syndrome, 626  
optical imaging of arrhythmias, in cardiac cell monolayers, 2077

repolarization, electrogenic mechanism, 1698

**Alternative splicing**

SCN5A, severe fatal arrhythmia and, 590, 598

**Amiodarone**

after cardioversion, fish oil supplementation effects and, 483, 492

effect on ventricular repolarization, class II antiarrhythmic drug treatment and, 2051

**Andersen-Tawil syndrome**

bidirectional VT in, alternans of diastolic intracellular calcium, 626

**Angiography**

great cardiac vein, external irrigation catheter, 156

**Angiotensin-converting enzyme inhibitor**

impact, pacing for complete AV block, 505, 511

**Angiotensin II**

microtubules and, repolarization induced by ventricular pacing, 1865, 1873

**Anisotropy**

connexin43 localization, gap junction remodeling, 1331

optical imaging of arrhythmias, in cardiac cell monolayers, 2077

### Ankyrin

CaMKII inhibition, proarrhythmic phenotypes and, 2034, 2042

### Antiarrhythmic drugs

AF, Medicare beneficiaries, 1403  
ajmaline, inferolateral early repolarization, 232, 240  
celivarone, use in ICD interventions, 217  
class II, ranolazine effects with, 2051  
electrophysiology comparison, canine PV sleeves, 422, 430  
gap junction remodeling, ischemia and infarction, 308  
inhibition, sodium channel blockers, delayed depolarizations and, 1125  
postrepolarization refractoriness, in acute ischemia, 977, 983  
radiofrequency ablation and, EP News, 629  
suppression of AF, inhibition of sodium-channel current, 125, 132

### Anticoagulants

AF, Medicare beneficiaries, 1403  
atrial high-rate episode, positive predictive value, 1241, E18(letter)  
oral, chronic, patients receiving ICD, 361, 368

### Antihypertensive therapy

sudden cardiac death during, racial differences, 531, 538

### Apamin

sensitivity, SK channels, EP News, 158

### Arrhythmias. *see also* specific type

antitachycardia pacing, therapy and diagnosis, 1517  
atrial, ablation, respiration effects during, 1041, 1048  
atrial remodeling, obstructive sleep apnea, 321, 328  
atrial-selective inhibition, sodium-channel current, 125, 132  
Brugada syndrome, variant in *SCN1Bb* linked to, SIDS and, 760  
calmodulin/CaMKII activation, for arrhythmogenesis, AV block dog, 1875  
CaMKII inhibition, human ankyrin-B syndrome, 2034, 2042  
cardiac sodium channelopathies, children, 1986, 1993  
congenital genes, torsades de pointes and, EP News, 1340  
connexin and, EP News, 628  
CRT, clinical trials, guidelines, and targets, S3  
device-based therapy, ACCF/AHA/HRS guidelines, 1737  
discrimination, hemoglobin NIRS, 1585, 1592  
early afterdepolarization-mediated, bi-stable wave propagation and, 115, 123  
early repolarization, short QT interval and, healthy subjects, 1265  
early repolarization pattern, genome-wide association studies, 1627, 1635  
estimation of T-wave alternans, spectral fast Fourier transform method, 449  
formation, subclinical long QT syndrome, 275, 283  
gap junction expression, heart, 1159  
gap junctions, stem cells and, 1512  
intermittent atrioventricular block, 154  
life-threatening, genome-wide association with, EP News, 628  
long QT syndrome, torsades de pointes and, 1143, 1148, 1150  
long RP tachycardia, entrainment *versus* resetting, 312  
mechanism, accessory pathway in para-Hisian pacing, 624  
muscular dystrophies, 1890  
optical imaging, in cardiac cell monolayers, 2077  
phenotype severity, genetic variants in *SCN5A* and, 1090, 1097

rate distribution, tachyarrhythmia therapy and, ICD population, 351, 359

SCN10A and, EP News, 317

severe fatal, *SCN5A* splice variant and, 590, 598

shock-induced, intracellular calcium and, 96, 105

Tbx-3 and, EP News, 471

TdP following, common genetic variant, 1104, 1113

vulnerability, reduced expression of Cx43 and, 600, 608

### Arrhythmic storm

Brugada syndrome, quinidine effects on malignant arrhythmias, 1995, 2001

### Arrhythmogenesis

pulmonary vein, AF, epicardial mapping, 258

### Arrhythmogenic right ventricular cardiomyopathy (ARVC).

*see* Cardiomyopathy

### Artificial heart

thinking beyond CRT in heart failure, S36

### Athletes

young, preparticipation screening, 1642, 1646, 1896, 1897

### Atorvastatin

prevention of recurrent AF, after pulmonary vein isolation, 172, 179

### Atrial conduction

slowing, before AF, EP News, 847

### Atrial electrograms

fractionated, maintenance of AF, EP News, 159

### Atrial fibrillation (AF)

ablation

atorvastatin for prevention of recurrence, 172, 179

contact force sensing, Toccata study, 18

continuous monitoring during blanking period, 1375

inadvertent superior vena cava isolation during, 1177

respiration effects, 1041

varying energy settings, 1380

after noncardiac surgery, statin use, 163, 170

anomalous pulmonary venous return and, catheter ablation, 1002

anticoagulation in, bleeding risk prediction, EP News, 1908

assessment of exit block, after PVI, 1653

atrial conduction slowing, EP News, 847

atrial high-rate episodes, predictive value of, 1241, E18(letter)

atrial overdrive pacing to prevent, ASSERT, 1667

atrioventricular block and, syncope triggered by PVCs, 1650

AVN remodeling induced by, 1419

catheter ablation

complications, EP News, 847

contact force-controlled zero-fluoroscopy, 709, 715

long-term effects, 473, 481

renal dysfunction and thromboembolic events after, 1755, E25(letter)

restoration of sinus rhythm before, 1025, 1031

*versus* surgical ablation, EP News, 318

thoroscopic surgical and transvenous, EP News, 1523

catheter and surgical ablation, 2012 HRS/EHRA/ECAS

Expert Consensus Statement, 632

chronic

delayed afterdepolarizations, EP News, 1340

SK1 and SK2 expression in, EP News, 628

with chronic kidney disease, role of oxidative stress, 2023, 2032

complex fractionated atrial electrograms, sinus rhythm fractionation and, 181
