

Index of Subjects

VOLUME 126 (2015)

- A-delta fibres** Cutaneous silent period; Axonal polyneuropathy; Demyelinating polyneuropathy; Neuropathic pain; (126) 1780
- A-train** Vestibular schwannoma; Neurophysiologic monitoring; EMG; Split facial nerve; Traintime; (126) 1833
- A.B. Hill** Somatosensory evoked potentials; Motor evoked potentials; Intraoperative neurophysiological monitoring; Evidence-based medicine; Causality guidelines; Surrogate endpoint; (126) 857
- ABR** Binaural interaction component; Binaural difference wave; Normal; Auditory brainstem response; (126) 772
- ACC** ERP; Feedback negativity; Reward; Striatum; Depression; (126) 1338
- Accuracy** Startle; Motor task; Motor control; (126) 1879
- Acoustic stimulation** Brain Evoked Source Analysis BESA; EEG; Vestibular cortex; Vestibular evoked myogenic potentials VEMP; (126) 614
- Actigraphy** Chronic sleep restriction; PVT; ERP; EEG; Circadian rhythms; (126) 549
- Action observation** Plasticity; Peripheral nerve electrical stimulation; Motor cortex; Transcranial magnetic stimulation; (126) 1212
- Acupuncture** Laser-evoked potentials; Pain perception; (126) 1761
- Acute pain** tDCS; Brain stimulation; Cardiovascular; Sympathetic; Autonomic; (126) 1039
- ADHD** Emotion processing; Event-related potentials; Oddball; P1; N170; P3; (126) 514
- ADHD** Voice control; ERP; Executive functions; Impulsiveness; (126) 1159
- Adolescence** Development; Auditory; Auditory brainstem response; cABR; FFR; (126) 2348
- Adolescent** Child; Cortical excitability; tDCS; TMS; MEP; (126) 1392
- Adult attention-deficit/hyperactivity disorder (ADHD)** Electroencephalogram (EEG); EEG alpha asymmetry; Gender difference; Depression; Test-retest reliability; (126) 711
- Affect** Event-related potential (ERP); Late positive potential (LPP); Controlled processing; Principal component analysis (PCA); Concealed information test (CIT); (126) 304
- Afferent disorder** Familial dysautonomia; Blink reflex; Jaw jerk reflex; Hereditary sensory neuropathy; Hereditary sensory and autonomic neuropathy type III; (126) 626
- After-discharges** Functional brain mapping; Electrical cortical stimulation; Intra-stimulation discharges; (126) 882
- Ageing** Corticomotor stimulus-response curves; Resting motor threshold; Children; Motor evoked potential; First dorsal interosseous; (126) 2337
- Ageing** Cochlear implant; Event-related potentials; Plasticity; Auditory cortex; Rehabilitation; (126) 594
- Ageing** Transcranial magnetic stimulation; Motor control; Neuroplasticity; Reaching; Rehabilitation; (126) 1024
- Ageing** Vestibular evoked myogenic potential; Vestibular; (126) 2207
- Ageing** Decomposition-based quantitative electromyography (DQEMG); Jiggle; Motor unit potential (MUP); Neuromuscular transmission; Skeletal muscle; (126) 2381
- Ageing-related change** Somatosensory-evoked response; Magnetoencephalographic study; Cortical inhibitory neuronal function; Paired-pulse suppression; Recovery function; (126) 1228
- Agreement** Sleep spindles; Reliability; Inter-rater; Inter-expert; Intra-rater; Intra-expert; Electroencephalography; Polysomnography; Event detection; Sleep staging; Sleep scoring; (126) 1548
- AIDP** AMAN; AMSAN; Antiganglioside antibody; Axonal degeneration; Demyelination; Electrophysiology; Endoneurial oedema; Experimental allergic neuritis; Guillain-Barré syndrome; Methylprednisolone; Ultrasonography; (126) 810
- Alarm device** Epileptic seizure detection; Automatic; Online; Parameter free; Prospective multi-center study; (126) 1124
- Alpha** Human immunodeficiency virus (HIV); CD4 lymphocyte; Resting-state electroencephalography (EEG); Low-resolution brain electromagnetic source tomography (LORETA); Brain rhythms; (126) 68
- Alpha** Autism; Electroencephalography; Development; Posterior basic rhythm; Resting state; (126) 297
- Alpha band** Graph theory; Fronto-temporal epilepsy; Functional connectivity; EEG; eLORETA; (126) 1108
- Alpha rhythms** White matter disease; Functional connectivity; Multi-scale dynamics; Axon propagation speed; Local networks; Global dynamics; Cortico-cortical axons; (126) 110
- Alpha-band desynchronization** Reaching; Parietal area; Motor planning; (126) 756
- ALS** Median nerve; Sonography; Carpal tunnel syndrome; Distal latency; (126) 1632
- Alternative and augmentative communication (AAC)** Brain-computer interface (BCI); Event-related potentials (ERP); Amyotrophic lateral sclerosis (ALS); Brain-machine interface (BMI); Electroencephalography (EEG); (126) 2124
- Alzheimer's disease** PRODEM; Quantitative electroencephalogram; (126) 505
- Alzheimer's disease** Lewy body; EEG; Dementia; Clinical neurophysiology; (126) 1735
- Alzheimer's disease (AD)** Resting-state functional magnetic resonance imaging (rs-fMRI); Graph theory; Machine learning; Statistical analysis; (126) 2132
- AMAN** AIDP; AMSAN; Antiganglioside antibody; Axonal degeneration; Demyelination; Electrophysiology; Endoneurial oedema; Experimental allergic neuritis; Guillain-Barré syndrome; Methylprednisolone; Ultrasonography; (126) 810
- Ambulatory EEG** Focal epilepsy; Interictal EEG; Elderly; Sleep; (126) 1498
- Amplitude of low-frequency fluctuate (ALFF)** Irritable bowel syndrome (IBS); Functional magnetic resonance imaging (fMRI); Functional connectivity (FC); Spontaneous neuronal activity; (126) 1190
- Amplitude of low-frequency fluctuation** Unaffected siblings; Schizophrenia; Voxel-based morphometry; Fractional amplitude of low-frequency fluctuation; (126) 927
- AMSAN** AIDP; AMAN; Antiganglioside antibody; Axonal degeneration; Demyelination; Electrophysiology; Endoneurial oedema; Experimental allergic neuritis; Guillain-Barré syndrome; Methylprednisolone; Ultrasonography; (126) 810
- Amygdala** Emotional arousal; Severe traumatic brain injury; EEG alpha power; Skin conductance level; Insula; (126) 314

- Amyotrophic lateral sclerosis** Cortical hyperexcitability; Dying forward; Motor neuron; (126) 803
- Amyotrophic lateral sclerosis** Myosonography; Electromyography; Neuromuscular; Ultrasound; (126) 820
- Amyotrophic lateral sclerosis** Segmental motoneurone; Spinal cord circuitry; Pathophysiology; H-reflex; (126) 828
- Amyotrophic lateral sclerosis** Brain-computer interface; Metanalysis; Locked-in syndrome; (126) 1255
- Amyotrophic lateral sclerosis** Mirror neurons; Empathy; Motor cortex; Cognition; (126) 1288
- Amyotrophic lateral sclerosis** Forced vital capacity; Pulmonary function test; Phrenic nerve; Nerve conduction study; Respiratory dysfunction; (126) 1421
- Amyotrophic lateral sclerosis (ALS)** Decomposition-based quantitative electromyography (DQEMG); Decomposition-enhanced spike-triggered averaging (DE-STA); Motor unit number estimation (MUNE); Trapezius muscle; Sensitivity to change; (126) 1427
- Amyotrophic lateral sclerosis (ALS)** Brain-computer interface (BCI); Alternative and augmentative communication (AAC); Event-related potentials (ERP); Brain-machine interface (BMI); Electroencephalography (EEG); (126) 2124
- Analgesics** Cognitive; EEG; Remifentanyl; Source localization; (126) 898
- Anesthesia** Electroencephalogram; Coupling; Permutation; Mutual information; Synchronization; Surrogate analysis; (126) 412
- Anesthesia monitoring** Poincaré plot; Consciousness; State-space representation; (126) 404
- Anesthetics** Axonal excitability; HCN channel; (126) 2033
- Angiotensin-converting enzyme gene** Hypertension; Cognitive event-related potentials; P300; (126) 2269
- Angular gyrus** Pediatric epilepsy surgery; Intracranial ECoG recording; Subdural EEG; Ripples; Physiological high-frequency oscillations (HFOs); Event-related synchronization; Time-frequency analysis; Spatio-temporal-dynamics; Functional brain mapping; Number; Nume; (126) 39
- Ankle** Locomotor training; Reflex; Spasticity; Spinal cord injury; Gait rehabilitation; (126) 997
- Anticipatory Postural Adjustments** Electromyostimulation; Muscle fatigue; Internal models; Motor control; (126) 1607
- Antiangliosis antibody** AIDP; AMAN; AMSAN; Axonal degeneration; Demyelination; Electrophysiology; Endoneurial oedema; Experimental allergic neuritis; Guillain-Barré syndrome; Methylprednisolone; Ultrasonography; (126) 810
- Anxiety** Chronic dizziness; Oculomotor test; Autonomic function test; Smooth pursuit; Vestibular migraine; Dysautonomia; (126) 180
- Aquagenic wrinkling** Water-immersion skin wrinkling; Stimulated skin wrinkling; Vasoconstriction; Small nerve fiber test; Sympathetic function; (126) 10
- Attention** Picture naming; Event-related potentials; Lexical; Stuttering; (126) 284
- Attention deficit hyperactivity disorder** Auditory brainstem response; Click; Speech; Temporal processing; Bottom-up; Top-down; (126) 325
- Attention Deficit Hyperactivity Disorder (ADHD)** Quantitative electroencephalography (QEEG); Integrated Visual and Auditory Continuous Performance Test (IVA + CPT); (126) 532
- Auditory** Pediatric epilepsy surgery; Intracranial ECoG recording; Subdural EEG; Ripples; Physiological high-frequency oscillations (HFOs); Event-related synchronization; Time-frequency analysis; Spatio-temporal-dynamics; Functional brain mapping; Number; Nume; (126) 39
- Auditory** Development; Auditory brainstem response; Adolescence; cABR; FFR; (126) 2348
- Auditory brainstem response** Speech; Elderly listeners; Word intelligibility; Reverberation; (126) 96
- Auditory brainstem response** Attention deficit hyperactivity disorder; Click; Speech; Temporal processing; Bottom-up; Top-down; (126) 325
- Auditory brainstem response** Binaural interaction component; Binaural difference wave; Normal; ABR; (126) 772
- Auditory brainstem response** Development; Auditory; Adolescence; cABR; FFR; (126) 2348
- Auditory cortex** Cochlear implant; Event-related potentials; Plasticity; Aging; Rehabilitation; (126) 594
- Auditory evoked fields** Fibromyalgia; Chronic pain; Magnetoencephalography; Mismatch negativity (MMN); (126) 1310
- Auditory evoked fields (AEF)** Cortical reorganization; Lateral inhibition; Magnetoencephalography (MEG); Auditory phantom perception; Tinnitus; (126) 1007
- Auditory evoked potentials** Parkinson's disease; Sensory gating; Subthalamic nucleus; Deep brain stimulation; (126) 565
- Auditory feature detection** Mismatch negativity; P300; Frequency modulation; Auditory sensory memory; Fresh-afferent hypothesis; (126) 1727
- Auditory oddball** Electroencephalography; Magnetoencephalography; Primary somatosensory cortex; Median nerve; 600 Hz wavelets; (126) 1769
- Auditory phantom perception** Auditory evoked fields (AEF); Cortical reorganization; Lateral inhibition; Magnetoencephalography (MEG); Tinnitus; (126) 1007
- Auditory sensory memory** Mismatch negativity; P300; Frequency modulation; Auditory feature detection; Fresh-afferent hypothesis; (126) 1727
- Auditory startle reflex** Generalized dystonia; Startle reflex to somatosensory inputs; (126) 1740
- Aura** Migraine; Visual cortex; Flash visual evoked potentials; Paired stimulation; Cortical inhibition; (126) 1988
- Autism** Electroencephalography; Development; Posterior basic rhythm; Alpha; Resting state; (126) 297
- Automated processing** Electroencephalography; Reliability; (126) 268
- Automatic** Epileptic seizure detection; Online; Parameter free; Alarm device; Prospective multi-center study; (126) 1124
- Automatic EEG**; Electroencephalography; Neonatal; Preterm; Premature; Burst; Interburst; Detection; (126) 1692
- Automatic breathing** Voluntary breathing; Primary motor cortex; Transcranial magnetic stimulation; Hand muscles; Motor-evoked potential; (126) 2162
- Automatic detection** High frequency oscillations; Ripples; Preictal state; Seizure onset zone; (126) 1505
- Autonomic** tDCS; Brain stimulation; Acute pain; Cardiovascular; Sympathetic; (126) 1039
- Autonomic function test** Chronic dizziness; Oculomotor test; Smooth pursuit; Vestibular migraine; Dysautonomia; Anxiety; (126) 180
- Axon propagation speed** White matter disease; Functional connectivity; Alpha rhythms; Multi-scale dynamics; Local networks; Global dynamics; Cortico-cortical axons; (126) 110
- Axonal degeneration** AIDP; AMAN; AMSAN; Antiangliosis antibody; Demyelination; Electrophysiology; Endoneurial oedema; Experimental allergic neuritis; Guillain-Barré syndrome; Methylprednisolone; Ultrasonography; (126) 810
- Axonal excitability** Slow potassium channel; Cramp; Fasciculation; (126) 1246
- Axonal excitability** Supernormality; Multiplet discharges; Motor neuron disease; (126) 1440
- Axonal excitability** POEMS syndrome; Nerve ultrasound; Ion channel; (126) 2014
- Axonal excitability** Anesthetics; HCN channel; (126) 2033
- Axonal excitability** Methylglyoxal; Diabetic neuropathy; HCN channel; *h*; (126) 2226
- Axonal loss** Optic neuritis; Multiple sclerosis; mfVEP; Demyelination; (126) 1617
- Axonal polyneuropathy** Cutaneous silent period; A-delta fibres; Demyelinating polyneuropathy; Neuropathic pain; (126) 1780
- Basal temporal language area** Language system; Posterior language area; Cortico-cortical evoked potential; (126) 682
- BC vibration** oVEMP; Vertex; Low frequency; Stimulus direction; (126) 608
- BCI** BMI; SSVEP; Critical flicker frequency; Visual fatigue; (126) 1972
- BCI** EEG; Motor imagery; Paraplegia; Central neuropathic pain; Event related synchronisation/desynchronisation; (126) 2170
- BDNF** Polymorphism; rTMS; Motor-evoked potentials; Cortical excitability; (126) 1348
- Beamforming** Epilepsy; Kurtosis; Spike; Source localization; (126) 889
- Beta-oscillations** Contingent negative variation (CNV); Movement cueing; Timing; Motor preparation; (126) 348
- Biceps muscle** Trigemino-cervical reflex; Trigemino-spinal reflex; Spinal cord injury; Reticulospinal tract; Propriospinal neurons; Deltoid muscle; (126) 983
- Bimodal** P300; Sensitivity; Oddball; Congruence; Facilitation; (126) 2108
- Binaural difference wave** Binaural interaction component; Normal; Auditory brainstem response; ABR; (126) 772
- Binaural interaction component** Binaural difference wave; Normal; Auditory brainstem response; ABR; (126) 772
- Biomarker** Parkinson's disease; P3a; Duration; Severity; (126) 2142
