

Subject Index

January–June 2016

January, pp. 1-150; February, pp. 151-306; March, pp. 307-422; April, pp. 423-564; May, pp. 565-692; June, pp. 693-798.

A

Abdominal compartment syndrome

- Air in the belly: a discussion of abdominal compartment syndrome (Roepke et al.). 2016;67:17–19 (EM:RAP Commentary)
[Tension pneumoperitoneum] (ONeil and Sztajnkrzyer). 2016;67:16
(Images in Emergency Medicine), 70 (Images in Emergency Medicine)

Abdominal pain. *See also* Renal colic

Abdominal pain, diagnosis

- Clinical problem solving: back to the basics (Bohan); Reply (Riney et al.). 2016;67:681–683 (Correspondence)
Prepubescent vaginal bleeding (Cotton et al.). 2016;67:680–681 (Correspondence)

Abortion, spontaneous

- A roadside reminder (Ngabirano). 2016;67:409–410 (Change of Shift)

Abscess

- Cleaning out practice myths: another emergency medicine treatment debunked [Journal Club questions for Chinnock et al., 2016;67:379-383] (Wolfe and Barrett). 2016;67:411–412
Irrigation of cutaneous abscesses does not improve treatment success (Chinnock and Hendey). 2016;67:379–383 (Brief Research Report)

Accident prevention

- Pedestrian injury prevention (American College of Emergency Physicians). 2016;67:687 (Policy Statements)

Acute chest syndrome

- Sickle cell crisis and you: a how-to guide (Raam et al.). 2016;67:787–790 (EM:RAP Commentary)

Acute generalized exanthematous pustulosis

- [Acute generalized exanthematous pustulosis] (Thurman and Hadley). 2016;67:576 (Images in Emergency Medicine), 587 (Images in Emergency Medicine)

Acute kidney injury

- Incidence and risk factors for postcontrast acute kidney injury in survivors of sudden cardiac arrest (Petek et al.). 2016;67:469–476

Adolescents. *See also* Children

- A case of acute upper airway obstruction in a pediatric hemophilia A patient because of spontaneous retropharyngeal hemorrhage (Yamamoto et al.). 2016;67:616–619 (Case Report)
Improving adolescent pelvic inflammatory disease follow-up from the emergency department: randomized controlled trial with text messages (Wolff et al.). 2016;67:602–609

Adrenal cortex hormones

- Do corticosteroids provide benefit to patients with community-acquired pneumonia? (Gottlieb and Bailitz). 2016;67:640–642 (Systematic Review Snapshot)
Do systemic corticosteroids improve outcomes in chronic obstructive pulmonary disease exacerbations? (Hernandez and Edmonds). 2016;67:258–259 (Systematic Review Snapshot)
A randomized trial of single-dose oral dexamethasone versus multidose prednisolone for acute exacerbations of asthma in children who attend the emergency department (Cronin et al.). 2016;67:593–601

Adrenergic beta-2 receptor agonists

- Do β -2 agonists for acute bronchitis provide any benefit? (Kolinsky and Schwarz). 2016;67:702–703 (Systematic Review Snapshot)

Adrenergic beta-antagonists

- Do α -blockers expedite ureteral stone passage? (Welch and Cooper). 2016;67:117–118 (Systematic Review Snapshot)
Is shock index a valid predictor of mortality in emergency department patients with hypertension, diabetes, high age, or receipt of β - or calcium channel blockers? (Kristensen et al.). 2016;67:106–113

Advanced life support. *See also* specific procedures

- Claims data study casts doubt on value of out-of-hospital advanced life support: EMS community gives spirited rebuttal (Greene). 2016;67:11A–14A [March issue] (News & Perspective)

- Use of short courses in emergency medicine as criteria for privileging or employment (American College of Emergency Physicians). 2016;67:691–692 (Policy Statements)

Advertising, direct-to-consumer

- Mass tort ads: sowing confusion or educating potential victims? (Greene). 2016;67:18A–20A [January issue] (News & Perspective)

Affordable Care Act. *See* Patient Protection and Affordable Care Act (ACA)

Africa

- A roadside reminder (Ngabirano). 2016;67:409–410 (Change of Shift)

Aged

- Impact of a clinical pharmacy specialist in an emergency department for seniors (Shaw et al.). 2016;67:177–188
Is shock index a valid predictor of mortality in emergency department patients with hypertension, diabetes, high age, or receipt of β - or calcium channel blockers? (Kristensen et al.). 2016;67:106–113
Persistent pain among older adults discharged home from the emergency department after motor vehicle crash: a prospective cohort study (Platts-Mills et al.). 2016;67:166–176
Prospective validation of the Ottawa 3DY Scale by geriatric emergency management nurses to identify impaired cognition in older emergency department patients (Wilding et al.). 2016;67:157–163
Self-reported versus performance-based assessments of a simple mobility task among older adults in the emergency department (Roedersheimer et al.). 2016;67:151–156

Age factors

- An age-adjusted D-dimer threshold for emergency department patients with suspected pulmonary embolus: accuracy and clinical implications (Sharp et al.). 2016;67:249–257
Risk factors for persistent frequent emergency department use in Medicare beneficiaries (Colligan et al.). 2016;67:721–729

Agitation, psychomotor

- Ketamine as rescue treatment for difficult-to-sedate severe acute behavioral disturbance in the emergency department (Isbister et al.). 2016;67:581–587 (Brief Research Report)
Let's "take 'em down" with a ketamine blow dart (Green and Andolfatto). 2016;67:588–590 (Editorial)
Out-of-hospital use of analgesia and sedation (American College of Emergency Physicians). 2016;67:305–306 (Policy Statements)

Air ambulance

- Maryland's helicopter emergency medical services experience from 2001 to 2011: system improvements and patients' outcomes (Hirshon et al.). 2016;67:332–340

AIR score

- Rating the ratings: the AIR scoring system for blogs and podcasts [Journal Club questions for Chan et al., 2016; <http://dx.doi.org/10.1016/j.annemergmed.2016.02.018>] (Trueger et al.). 2016;67:675–676

Airway management. *See also* Intubation, intratracheal

- Does intubation improve outcomes over supraglottic airways in adult out-of-hospital cardiac arrest? (Carlson and Wang). 2016;67:396–398 (Systematic Review Snapshot)

Airway obstruction

- A case of acute upper airway obstruction in a pediatric hemophilia A patient because of spontaneous retropharyngeal hemorrhage (Yamamoto et al.). 2016;67:616–619 (Case Report)

Albumins

- Does albumin infusion reduce renal impairment and mortality in patients with spontaneous bacterial peritonitis? (Jamtgaard et al.). 2016;67:458–459 (Systematic Review Snapshot)

Alcohol drinking

- A randomized controlled trial of a telephone intervention for alcohol misuse with injured emergency department patients (Mello et al.). 2016;67:263–275

Alert systems, medication

Clinically inconsequential alerts: the characteristics of opioid drug alerts and their utility in preventing adverse drug events in the emergency department (Genco et al.). 2016;67:240–248

All-terrain vehicles. See Off-road motor vehicles

Altered mental status

[Young male with altered mental status] (Brady et al.). 2016;67:477 (ECG of the Month), 490–491 (ECG of the Month)

Ameloblastoma

[Ameloblastoma] (Dyer et al.). 2016;67:786 (Images in Emergency Medicine), 798 (Images in Emergency Medicine)

American College of Emergency Physicians. See Clinical Policies; Policy Statements

Analgesia

Efficacy of an acute pain titration protocol driven by patient response to a simple query: do you want more pain medication? (Chang et al.). 2016;67:565–572

Emergency department pain management in pediatric patients with fracture or dislocation in a bi-ethnic population (Shavit et al.). 2016;67:9–14

Global Emergency Medicine Journal Club: a social media discussion about the lack of association between Press Ganey scores and emergency department analgesia (Westafer et al.). 2016;67:49–55 (Special Contribution)

Move over morphine: is ketamine an effective and safe alternative for treating acute pain? [Journal Club questions for Motov et al., 2015;66:222–229] (Barrett and Schriger). 2016;67:289–294

Numeric scoring of pain still has value (Jones et al.). 2016;67:679–680 (Correspondence)

The numeric scoring of pain: this practice rates a zero out of ten (Green and Krauss). 2016;67:573–575 (Editorial)

Out-of-hospital use of analgesia and sedation (American College of Emergency Physicians). 2016;67:305–306 (Policy Statements)

The prescription opioid epidemic: social media responses to the Residents' Perspective article (Choo et al.). 2016;67:40–48 (Special Contribution)

Sickle cell crisis and you: a how-to guide (Raam et al.). 2016;67:787–790 (EM:RAP Commentary)

Analgesics. See also Diphenhydramine

Do nonopioid medications provide effective analgesia in adult patients with acute renal colic? (Wilson and Goldberg). 2016;67:591–592 (Systematic Review Snapshot)

Move over morphine: is ketamine an effective and safe alternative for treating acute pain? [Journal Club questions for Motov et al., 2015;66:222–229] (Barrett and Schriger). 2016;67:289–294

Analgesics, opioid, disorders & misuse

Naloxone prescriptions by emergency physicians (American College of Emergency Physicians). 2016;67:149–150 (Policy Statements)

Analgesics, opioid, prescribing practices

Best practices for prescription drug monitoring programs in the emergency department setting: results of an expert panel (Greenwood-Erickson et al.). 2016;67:755–764 (Concepts)

Clinically inconsequential alerts: the characteristics of opioid drug alerts and their utility in preventing adverse drug events in the emergency department (Genco et al.). 2016;67:240–248

Emergency department pain management in pediatric patients with fracture or dislocation in a bi-ethnic population (Shavit et al.). 2016;67:9–14

Move over morphine: is ketamine an effective and safe alternative for treating acute pain? [Journal Club questions for Motov et al., 2015;66:222–229] (Barrett and Schriger). 2016;67:289–294

The prescription opioid epidemic: social media responses to the Residents' Perspective article (Choo et al.). 2016;67:40–48 (Special Contribution)

Anemia, sickle cell

Sickle cell crisis and you: a how-to guide (Raam et al.). 2016;67:787–790 (EM:RAP Commentary)

Anesthetics, intravenous

Is single-dose etomidate induction safe in emergency intubation of critically ill patients? (Upadhye and Cyganik). 2016;67:399–400 (Systematic Review Snapshot)

Angiography, CT

Computed tomography angiography of the head is a reasonable next test after a negative noncontrast head computed tomography result in the emergency department evaluation of subarachnoid hemorrhage (Probst and Hoffman). 2016;67:773–774 (Clinical Controversies)

Coronary computed tomography angiography versus traditional care: comparison of one-year outcomes and resource use (Hollander et al.). 2016;67:460–468

The impact of clinical decision rules on computed tomography use and yield for pulmonary embolism: a systematic review and meta-analysis (Wang et al.). 2016;67:693–701 (Meta-Analysis)

Incidence and risk factors for postcontrast acute kidney injury in survivors of sudden cardiac arrest (Petek et al.). 2016;67:469–476

Penetrating neck injury: what's in and what's out? (Roepke et al.). 2016;67:578–580 (EM:RAP Commentary)

Tried and true and still the best: lumbar puncture, not computed tomography angiogram, for the diagnosis of subarachnoid hemorrhage (Chin). 2016;67:774–775 (Clinical Controversies)

Ankle, pathology

Limping child? Think LIMPSS (Raam et al.). 2016;67:297–300 (EM:RAP Commentary)

[Osteomyelitis with subperiosteal abscess] (Pade et al.). 2016;67:705 (Images in Emergency Medicine), 746 (Images in Emergency Medicine)

[Talar osteomyelitis] (Savage et al.). 2016;67:296 (Images in Emergency Medicine), 306 (Images in Emergency Medicine)

Annals of Emergency Medicine

Annals News & Perspective turns 10: a look back at a storied decade (Berger). 2016;67:14A–16A [March issue] (News & Perspective)

Anoxia

Blowing smoke: examining the benefits of high-flow nasal cannula in hypoxic respiratory failure [Journal Club answers for Frat et al., *New England Journal of Medicine* 2015;372:2185–2196] (Spiegel et al.). 2016;67:547–552, Correction 2016;67:676

Antibiotic therapy

Are antibiotics effective in the treatment of acute maxillary sinusitis? (Hernandez et al.). 2016;67:384–385 (Systematic Review Snapshot)

Are oral antibiotics as effective as a combination of intravenous and oral antibiotics for kidney infections in children? (Cruz and Spina). 2016;67:30–31 (Systematic Review Snapshot)

Vancomycin-resistant *Staphylococcus aureus*—Delaware, 2015 (Walters et al.); Commentary (Saheed and Rothman). 2016;67:386–388 (CDC Update)

Anticoagulant reversal

Thromboembolic events after vitamin K antagonist reversal with 4-factor prothrombin complex concentrate: exploratory analyses of two randomized, plasma-controlled studies (Milling et al.). 2016;67:96–105

Anticoagulants

Are new oral anticoagulants safer than vitamin K antagonists in the treatment of venous thromboembolism? (Kolinsky and Schwarz). 2016;67:455–457 (Systematic Review Snapshot)

Mass tort ads: sowing confusion or educating potential victims? (Greene). 2016;67:18A–20A [January issue] (News & Perspective)

What is the most effective treatment of superficial thrombophlebitis? (Maddox and Seupaul). 2016;67:671–672 (Systematic Review Snapshot)

Anticoagulants, poisoning

An observational study of the factor Xa inhibitors rivaroxaban and apixaban as reported to eight poison centers (Spiller et al.). 2016;67:189–195

Anti-inflammatory agents. See also Adrenal cortex hormones

Anti-inflammatory agents, non-steroidal

Do nonopioid medications provide effective analgesia in adult patients with acute renal colic? (Wilson and Goldberg). 2016;67:591–592 (Systematic Review Snapshot)

What is the most effective treatment of superficial thrombophlebitis? (Maddox and Seupaul). 2016;67:671–672 (Systematic Review Snapshot)

Antipsychotics

Ketamine as rescue treatment for difficult-to-sedate severe acute behavioral disturbance in the emergency department (Isbister et al.). 2016;67:581–587 (Brief Research Report)

Let's "take 'em down" with a ketamine blow dart (Green and Andolfatto). 2016;67:588–590 (Editorial)

Out-of-hospital use of analgesia and sedation (American College of Emergency Physicians). 2016;67:305–306 (Policy Statements)

On the temporal relation of droperidol administration and the QT interval (Marill); Reply (Isbister et al.). 2016;67:146–147 (Correspondence)

Apixaban

Mass tort ads: sowing confusion or educating potential victims? (Greene). 2016;67:18A–20A [January issue] (News & Perspective)
