Note: Page numbers of article titles are in **boldface** type.

## A

- Abdominal pain, abdominal considerations in, 183–184
  - antiemetics in, 182
  - auscultation in, 170
  - C-reactive protein in, 174–175
  - character of, 167
  - classical presentation in, 170
  - computed tomography in, 177–180
  - D dimer in, 175
  - diagnostic imaging modalities in, 176–182
  - differential diagnosis of, 166, 169, 170, 171
  - evidence-based medicine approach to, **165–190**
  - extra-abdominal examination in, 173
  - guarding in, 172
  - in geriatric patient, **363–375**
    - abnormalities in, 365–371
    - disposition in, 371
    - extra-abdominal causes of, 369–370
    - general approach to, 364–365
    - history-taking in, 364
    - imaging in, 364
    - in appendicitis, 368
    - in biliary tract disease, 366, 367
    - in constipation, 370
    - in diverticular disease, 367–368
    - in large-bowel obstruction, 365–366
    - in malignancy, 370
    - in pancreatitis, 366–367
    - in peptic ulcer disease, 367
    - in small-bowel obstruction, 365
    - pharmacology-related, 371
    - physical examination in, 364
    - treatment and disposition in, 365
  - in immunocompromised patients, **377–386**
  - intestinal fatty acid binding protein in, 175
  - laboratory testing in, 173–176
  - lactate elevations and, 175–176
  - lipase/amylase/liver function tests in, 176
  - location of, 166–167
  - lower, **229–249**
  - onset of, 166
  - outside factors and, 167, 168

**Abdominal (continued)**

- pain medication in, 182–183
  - palpation in, 171
  - past history and, 167–168
  - pediatric, causes of, 342, 344–345, 357
    - constipation in, 345
    - diagnosis and workup in, 345
    - epidemiology of, 341–342
    - history-taking in, 342
    - imaging in, 344
    - management of, 345
    - physical examination in, 342, 343, 345
  - physical appearance and, 169, 170
  - physical examination in, 168–173
  - plain radiographs in, 177–179
  - presenting illness in, 165–168
  - procalcitonin in, 175
  - radiation in, 167
  - rebound tenderness in, 172
  - rectal examination in, 173, 174
  - right upper quadrant, evaluating patient with, **211–228**
  - special examination techniques in, 172–173
  - therapeutic management and disposition in, 182–184
  - ultrasound in, 180–182
  - vital signs in, 169, 170
  - white blood cell count in, 174
- Abdominal pain mimics, 409–423**
- cannot miss diagnoses of, 411–412
  - requiring urgent evaluation, 412–417
  - unusual conditions causing, 417–420
- Adrenal crisis, as abdominal pain mimic, 416
- Amanita intoxication, as abdominal pain mimic, 414–415
- Amebic colitis, 380
- Anal fissures, 255, 256
  - clinical features of, 255
  - management of, 256
  - pathology of, 255
- Anastomatic stenosis, as complication of Roux-en-Y gastric bypass, 398
- Angioedema, hereditary, as abdominal pain mimic, 414
- Anorectal abscesses/cryptitis, clinical features of, 257
  - management of, 257–258
  - pathophysiology of, 256–257
- Anorectal complaints, in emergency department, **251–270**
- Anorectal fistula, 258
- Aortic aneurysm, abdominal, anatomy/pathophysiology of, 332–333
  - causes/risk factors for, 333
  - clinical findings in, 333–334
  - imaging studies in, 334, 335
  - rupture of, locations of, 333
  - treatment of, 335
- Aortoenteric fistulas, clinical findings in, 336
