This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Evidence for the Effectiveness of a National School-Based Mental Health Program in Chile

RH: Effectiveness of a School-Based Mental Health Intervention

Javier Guzmán, BA; Ronald C. Kessler, PhD; Ana Maria Squicciarini, BA; Myriam George, BA; Lee Baer, PhD; Katia Canenguez, PhD; Madelaine R. Abel, BA; Alyssa McCarthy, BA; Michael J. Jellinek, MD; J. Michael Murphy, EdD

This article is discussed in an editorial by Dr. Guilherme Polanczyk on page xx.

Supplemental material cited in this article is available online.

Accepted July 27, 2015

Mr. Guzmán and Ms. Squicciarini are with Junta Nacional de Auxilio Escolar y Becas Chile. Mr. Guzmán is also with Universidad del Desarrollo, Santiago, Chile. Dr. Kessler is with Harvard Medical School of Public Health, Boston. Ms. George is with Universidad de Chile, Santiago. Drs. Baer, Canenguez, and Murphy and Ms. Abel are with Massachusetts General Hospital, Boston. Drs. Baer, Canenguez, Jellinek, and Murphy are with Harvard Medical School, Boston. Ms. McCarthy is with Rutgers University, New Brunswick, NJ.

All of the Chilean authors received salary contributions from either: 1) the Chilean government for running the mental health promotion program and/or gathering data about it or 2) from an evaluation contract with the Chilean government for data analyses. All US authors except Drs. Kessler and Jellinek received salary or consultation support for secondary data analysis or report writing described in this report. The mental health promotion program and all related data collection are funded through the annual budget of the JUNAEB branch of the Chilean Ministry of Education, as is the basic data analysis. A generous Fuss Family Fund grant to Massachusetts General Hospital made the current data analysis and paper writing possible (salary support for Drs. Murphy and Baer, Ms. McCarthy, and Ms. Abel).

Dr. Baer served as the statistical expert for this research.

Disclosure: Dr. Kessler has served as a consultant for Hoffmann-La Roche, Inc. and Johnson and Johnson Wellness and Prevention. He has served on advisory boards for Mensante Corporation, Johnson and Johnson Services Inc. Lake Nona Life Project, and US Preventive Medicine. He is a co-owner of DataStat, Inc. Dr. Jellinek is the co-author of the Pediatric Symptom Checklist (PSC). No income is derived from the questionnaire, as it is available in the public domain. Dr. Murphy is the co-author of the Pediatric Symptom Checklist (PSC). No income is derived from the questionnaire, as it is available in the public domain. Drs. Baer and Canenguez, Mr. Guzmán, Ms. Squicciarini, Ms. George, Ms. Abel, and Ms. McCarthy report no biomedical financial interests or potential conflicts of interest.

Correspondence to J. Michael Murphy, EdD, Child Psychiatry Service, Massachusetts General Hospital, Yawkey 6A, Boston, MA 02114; email: mmurphy6@partners.org.
