Gastro-esophageal Acid Reflux Control 5 Years After Anti-Reflux Surgery,
Compared With Long-Term Esomeprazole Therapy

Jan G. Hatlebakk, Frank Zerbib, Stanislas Bruley des Varannes, Stephen E.
Attwood, Christian Ell, Roberto Fiocca, Jean-Paul Galmiche, Stefan Eklund, Göran
Långström, Tore Lind, Lars R. Lundell

PII: S1542-3565(15)00984-2
DOI: [10.1016/j.cgh.2015.07.025](https://doi.org/10.1016/j.cgh.2015.07.025)
Reference: YJCGH 54391

To appear in: *Clinical Gastroenterology and Hepatology*
Accepted Date: 10 July 2015

Please cite this article as: Hatlebakk JG, Zerbib F, Bruley des Varannes S, Attwood SE, Ell C, Fiocca R, Galmiche J-P, Eklund S, Långström G, Lind T, Lundell LR, on behalf of the LOTUS study group, Gastro-esophageal Acid Reflux Control 5 Years After Anti-Reflux Surgery, Compared With Long-Term Esomeprazole Therapy, *Clinical Gastroenterology and Hepatology* (2015), doi: 10.1016/j.cgh.2015.07.025.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

All studies published in *Clinical Gastroenterology and Hepatology* are embargoed until 3PM ET of the day they are published as corrected proofs on-line. Studies cannot be publicized as accepted manuscripts or uncorrected proofs.

Manuscript Number: CGH 15-00562
