Features and Progression of Potential Celiac Disease in Adults

Umberto Volta, Giacomo Caio, Fiorella Giancola, Kerry J. Rhoden, Eugenio Ruggeri, Elisa Boschetti, Vincenzo Stanghellini, Roberto De Giorgio

PII: S1542-3565(15)01491-3
DOI: [10.1016/j.cgh.2015.10.024](https://doi.org/10.1016/j.cgh.2015.10.024)
Reference: YJCGH 54527

To appear in: *Clinical Gastroenterology and Hepatology*
Accepted Date: 9 October 2015

Please cite this article as: Volta U, Caio G, Giancola F, Rhoden KJ, Ruggeri E, Boschetti E, Stanghellini V, De Giorgio R, Features and Progression of Potential Celiac Disease in Adults, *Clinical Gastroenterology and Hepatology* (2015), doi: 10.1016/j.cgh.2015.10.024.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Features and Progression of Potential Celiac Disease in Adults

Short title: Potential celiac disease in adults

Umberto Volta, Giacomo Caio, Fiorella Giancola, Kerry J. Rhoden, Eugenio Ruggeri,

Elisa Boschetti, Vincenzo Stanghellini and Roberto De Giorgio

Departments of Medical and Surgical Sciences and Digestive System; Centro di Ricerca Biomedica

Applicata (C.R.B.A.), University of Bologna, St. Orsola-Malpighi Hospital, Bologna, Italy
