

# Subject index to Volume 16

Indexer: Dr Laurence Errington

## A

- ABCDE, maternal postpartum resuscitation, 75–7
- abdominal examination in dyspareunia, 230
- abdominal hysterectomy, 148
- in menorrhagia, risks, 85, 151
  - in postpartum haemorrhage, 11–12
  - total vs subtotal, in benign disease, 148
  - vaginal vs, in benign disease, 148
- abdominal pain, gynaecological cancer, 113
- abortion
- spontaneous (loss of pregnancy) see miscarriage
  - therapeutic (termination of pregnancy)
    - ectopic pregnancy, 329–30
    - emotional changes, 15
    - legal issues, 292  - see also embryo reduction
- ACE inhibitors in pregnancy, 318
- acute chest syndrome of sickle cell disease, 355
- adjustment disorders, pregnancy, 15
- adjuvant chemotherapy, 103
- adrenal gland in low birthweight babies and consequences in later life, 271
- adrenaline, neonatal, 136, 139
- $\alpha$ -adrenergic agonist, centrally-acting, as antihypertensive in pregnancy, 317
- $\beta$ -adrenergic agonist, tocolytic effects, 178
- adrenergic blocker, non-specific, in pregnancy, 317
- age, maternal, and delivery with previous caesarean section, 170
- airway management
- critically ill obstetric patient, 129
  - neonatal, 135, 136, 138–9
  - preterm, 137
  - postpartum collapse, 75
- airway pressure, neonatal, monitoring and management, 136
- preterm infant, 137
- alcohol abuse, 17
- alkylating agents, 104
- alopecia, chemotherapeutic drug-induced, 106
- alpha agonist, centrally-acting, as antihypertensive in pregnancy, 317
- alpha-fetoprotein and intrauterine growth restriction, 262
- amniotic fluid
- embolus, 129
  - excess/deficits, management, 257
- anaemia
- chronic, of sickle cell disease, 354
  - postpartum, 69
- anaesthesia
- obesity and, 244
  - tubal ligation, 40
  - vasectomy, 42
- anal incontinence, postpartum, 68
- analgesia see pain relief
- androgen excess see hyperandrogenism
- angiotensin-converting enzyme inhibitors in pregnancy, 318
- angiotensin receptor blockers in pregnancy, 318
- anogenital warts, 222–3
- anovulation, 282–4
- in polycystic ovarian syndrome, 274–8
- antenatal care
- HIV-positive women, 193–5
  - pre-eclampsia, 319
  - with previous caesarean section, 171
  - sickle cell disease, 356–7
- antenatal problems
- obesity causing, 243
  - postpartum collapse due to, 75
- antenatal tests and screening
- congenital malformations associated with
    - antiretroviral drugs, 193  - cystic fibrosis, 64
  - intrauterine growth restriction, 261–2
  - psychiatric disorders, 19
  - sickle cell disease and thalassaemia, 356
  - von Willebrand's disease, 2
- anthracyclines, 105
- antibiotics (anticancer), 105
- antibiotics (antimicrobial)
- bacterial vaginosis, 213
  - Chlamydia trachomatis*, 215, 219–20
  - Neisseria gonorrhoeae*, 215–16, 220–1
  - preoperative prophylactic use, 88
  - Treponema pallidum*, 221
- anticholinergics, overactive bladder, 351
- anticoagulants
- in obstetrics
    - postpartum prophylaxis, 322–3
    - venous thrombosis treatment, 324  - surgery and
    - preoperative evaluation, 86–7
    - prophylactic use, 87–8
- anticonvulsants, pre-eclamptic women, 319–20
- antidepressants, pregnancy and breastfeeding, 19
- antifibrinolytics, von Willebrand's disease, 5
- antifungal drugs, vaginal candidiasis, 214
- antihypertensive drugs
- antenatal, 317–18
    - pre-eclamptic women, 319  - postnatal, 318
- antimetabolites, 104–5
- antioestrogens inducing ovulation, 282
- in polycystic ovarian syndrome, 275–6
- antiprotozoal drugs, trichomoniasis, 216
- antipsychotics, pregnancy and breastfeeding, 19
- antiretroviral drugs, 223
- maternal use, 223
    - in reduction of vertical transmission, 194–5, 196
    - screening for congenital malformations, 193  - neonatal, 197
  - semen parameters and effects of, 301–2

- antithyroid drugs, 50
  - antiviral drugs
    - genital herpes, 222
    - HIV see antiretroviral drugs
  - anxiety, pregnancy, 15–16
  - aplastic crises in sickle cell disease, 355
  - arms in breech presentation, difficulties in delivery of, 238
  - aromatase inhibitors in anovulatory infertility, 284
  - arrhythmias, fetal, management, 256–7
  - arterial blood flow and intrauterine growth
    - restriction, 262–3, 263–4
  - arterial disease risk, combined oral contraceptives, 24
  - artificial reproduction techniques see assisted conception/reproduction
  - asphyxia, vaginal breech delivery, 238
  - aspirin in pregnancy
    - in chronic hypertension, 318
    - pre-eclampsia prophylaxis, 320
  - assisted conception/reproduction
    - embryo reduction, ethical issues, 181–4
    - HIV-discordant couples, 300–4
    - legal issues, 293
    - polycystic ovarian syndrome, 274–8
  - atosiban as tocolytic, 179
  - aura of migraine and combined oral contraceptives, 25
  - autonomy, 207
  - azoospermia with vasectomy, time to achieve, 42
- B**
- backache, postpartum, 69
  - bacterial infections
    - sexually-transmitted, 214–16, 219–21
    - vagina, 212–13
  - balloon tamponade, postpartum haemorrhage, 10
  - Barker hypothesis, 266
  - behaviour modification, vaginismus, 232
  - bereavement care, stillbirth, 203, 204
  - $\beta$ -agonists, tocolytic effects, 178
  - bicarbonate, neonatal, 137, 139
  - biguanide see metformin
  - bile stasis and stillbirth, 202
  - biochemical tests
    - ectopic pregnancy, 329
    - miscarriage, 330
  - biophysical profile and intrauterine growth
    - restriction, 264
  - bipolar affective disorder, 16–17
  - bladder
    - drill (timed emptying), 348
    - hysterectomy effects on function, 149–50
  - obstruction causing poor emptying, 351
  - overactive (OAB), and detrusor overactivity, 345
    - management, 56, 57, 124, 348–9, 351–2
    - postpartum, 69
    - postpartum, 66
  - bleeding see haemorrhage
  - bleomycin, 105
  - blood pressure
    - ante-partum, measurement, 316
    - postpartum, 66
    - see also antihypertensive drugs; hypertension
  - blood transfusion (and blood products)
    - fetal, 256
  - maternal
    - postpartum haemorrhage, 9–10
    - sickle cell disease, 357
    - von Willebrand's disease, 5
  - blues, postnatal, 15
  - body mass index in obstetrics, 242
    - complications related to, 243
  - bone marrow suppression, chemotherapeutic drugs, 105
  - borderline ovarian tumours, 165–6
  - botulinum toxin, overactive bladder, 351
  - bowels (intestine)
    - hysterectomy effects on function, 149–50
    - postoperative problems, 90–1
    - postpartum, 66
    - problems, 68
  - brachytherapy, 102
  - BRCA genes and ovarian cancer screening, 162, 339–40
  - breast
    - cancer risk
      - combined oral contraceptives, 25–6
      - fertility treatment, 287
      - polycystic ovarian syndrome, 335
    - cancer screening, 342
    - postpartum, 66
    - problems, 67–8
  - breastfeeding (lactating mother), 67
    - antithyroid drugs, 50
    - HIV-positive women
      - avoidance, 197
      - vertical transmission risk, 192
    - psychotropics, 18–19
  - breathing assessment and management (respiratory support)
    - neonatal, 135, 139
    - preterm, 137
    - obstetric patient
      - in critical illness, 129–30
      - postpartum collapse, 76
  - breathlessness (dyspnoea) cancer patients, 115
  - breech presentation, 236–9
    - previous caesarean section and, 171
  - brow presentation, 235
    - caesareans for, 236
- C**
- CA125, ovarian cancer screening, 162–3, 338–9, 339
  - caesarean section
    - HIV-positive women, pre-labour, 195–7
    - for malpresentations
      - breech presentation, 236, 238
      - face/brow presentations, 236
      - transverse of oblique lie, 239
    - medico-legal issues, 208–9
    - obese women, 244
      - postoperative problems, 244–5
    - placenta praevia, 82
    - previous, management in, 168–73
    - vasa praevia, 83
    - von Willebrand disease and, 4
  - calcium channel blockers
    - as antihypertensives in pregnancy, 317
    - as tocolytics, 179
  - cancer
    - cervical see cervical cancer
    - endometrial see endometrial cancer
